## Organization of this Report

This Community Needs Assessment Report begins with an explanation of Community Action, the Executive Summary, an Overview of the Agency, the Purpose of the Report, the Methodology used in conducting the community needs assessment, Key Findings and Identified Needs from the research. The appendices include a community summary, profile and data analysis for the 14-county area (Bulloch, Burke, Columbia, Emanuel, Glascock, Jefferson, Jenkins, Lincoln, McDuffie, Richmond, Screven, Taliaferro, Warren, and Wilkes counties), the 13-county Community Services Block Grant (CSBG) service area, the 11 Head Start/Early Head Start (HS/EHS) service area county data, Veterans related data for the 20-county Supportive Services for Veteran Families (SSVF) Program service area, data by county for the 14 county area, with source and methodology for data, an update on COVID-19 and the impact of the Pandemic, Community and Clients Surveys, Service Reports, and Community Resources. Specific data domains include:
> Community Summary, Profile, and Analysis
> Demographics, Population Profile
> Employment \& Economy
> Income, Assets, Poverty, \& Income Supports/Public Benefits
$>$ Adult Education \& Training
$>$ Education (Children \& Youth)
$>$ Child Care Centers
> Health, Wellness \& Nutrition
$>$ Disabilities
$>$ Housing

- Homelessness
- Rental Housing
- Home Ownership
- Utilities
- Broadband Access
> Transportation
> Special Population
- Senior Citizens
- Children/Youth
- Veterans
- Crime/Reentry/Returning Citizens
- Populations with Limited English Proficiency

## Executive Summary

In 1964 the crusade to create a "Great Society" in America was launched through the Economic Opportunity Act (EOA), legislation that created the more than 1,000 Community Action Agencies across the country whose mission it is to confront poverty on the local level. This legislation reminded us that we had a "compassionate commitment to keep faith with the morality of our society", to relieve the poor "from the oppression of poverty" through Community Action, which would be "local effort, local leadership, local vision" (Bradley, 2006). CSRA Economic Opportunity Authority, Inc. (CSRA EOA, Inc.) mobilizes both government and private resources locally, and at the state and federal levels, to work toward accomplishing our mission. We work to eliminate causes of poverty, improve conditions, educate the public, advocate on behalf of the low-income population and plan and implement (with maximum feasible participation of the low-income population) programs and services that increase opportunity, equity, skills, and knowledge, thus leading to increase self-sufficiency and decreased poverty in the CSRA.

As part of the Results Oriented Management and Accountability planning phase, we conduct a Community Needs Assessment every three years (with annual data updates) to help gauge the community condition, determine gaps in services, and set need priorities that will be used to best serve the low-income community. The information gathered in the Community Needs Assessment allows us to "see the face of poverty" in our communities, and use that information to mobilize resources to addresses the causes and conditions of poverty, organize communities, and develop innovative ways to serve CSRA families and communities. This assessment process helps guide CSRA EOA, Inc.'s strategic planning process (and updates) and annual work plan which includes core programs and services to address poverty in the CSRA.

The CSRA is a mix of urban, suburban and rural communities and though the population has grown over the past 14 years, most growth has occurred in only a few counties. Many rural counties continue to suffer population loss, higher unemployment, higher rates of poverty, lower incomes, limited transportation options, and less available affordable, standard housing. Incomes from wages remain lower in the CSRA than the state average weekly income, as does Median and Per Capita income. (See Appendices for Data). The unemployment rate had been decreasing prior to the onset of the COVID-19 Pandemic, and the area is currently working to recover both health wise and economically from the impact of the Pandemic. Poverty rates have not improved, overall for the area, though Columbia and Bulloch Counties have seen continued improvement. Female headed households continue to be significantly more likely than married couples or male-headed households to live in poverty. Our minority populations continue to be most likely to experience poverty; additionally, the rate of children ages 0-4 living in poverty is higher in the area than for the state of Georgia or the US.

The "typical" person served by CSRA EOA, Inc. is fairly representative of the citizens living in our tri-county region, with the exception of race. The majority of participants served by the agency (between the ages of 18 and 65) are either unemployed, or disabled, though a high percentage are working and are struggling to meet their household needs. Lack of income (earned and public assistance) makes meeting household needs, accessing transportation and child care, affording safe housing and obtaining access to medical care more difficult.

At the most basic level, the best way to increase household income is through employment; but employment alone, does not seem to be the answer; even though unemployment has continued to go down, rates of poverty continue to increase in the area. Many jobs are part time and/or minimum wage and many low-income families in our region lack career paths. Instead, the focus is on getting someone a job, but the ongoing supports to allow for an improvement in that job are missing. Additionally, the high cost of transportation and child care present significant barriers to employment. The high cost of housing and utilities is another issue faced by low-income families.

Throughout the Pandemic, many people have faced unemployment, gotten behind on their rent or mortgage, and on other bills and we may be facing a "Credit Crisis" as the resulting impact on credit scores, and the potential increase in interest rates impacts low-income families. Additionally, many microenterprise owners and small business owners have been significantly impacted and were unable to access the Small Business Administration and other resources to help them keep their businesses afloat through the storm of the Pandemic.

Recommendations for combating the causes and conditions of poverty include prioritizing career pathways and working with the community and economic development in partnership to attract living wage jobs; integrating direct services with community development; finding creative solutions to transportation; continuing to provide quality child education and support services and family services for Head Start and Early Head Start families; developing and expanding partnerships to create more affordable housing options; continuing the work with the Continuums of Care to decrease homelessness across the CSRA through Coordinated Intake and Assessment and the Supportive Services for Veteran Families; increasing home ownership opportunities through housing counseling, increasing financial literacy and financial capabilities building through conferences and one-on-one assistance, the IDA program, and homebuyer education, the home possible project creating affordable home ownership options; and to continue providing home weatherization to reduce energy costs for low income families.

## Overview of the Agency/Background

## Introduction \& Community Action History

Community Action agencies were created as a direct result of the Economic Opportunity Act (EOA) of 1964, to address the root causes of and ameliorate poverty at the local level in communities across the United States of America. The EOA was key legislation in the War on Poverty; designed to provide local community with resources to determine the causes of poverty and work to improve conditions and provide opportunity for people to get out of poverty. Approximately 1,000 Community Action Agencies exist in the US and its territories, all working to meet local needs and achieve three national goals:
> Goal 1: Individuals and families with low incomes are stable and achieve economic security.
$>$ Goal 2: Communities where people with low incomes live are healthy and offer economic opportunity.
$>$ Goal 3: People with low-incomes are engaged and active in building opportunities in communities.

These goals focus on the family, in which agencies assist them in attaining skills, knowledge, and motivations to "secure the opportunities needed for them to become self-sufficient"; the community, by working to ensure the entire community is more responsive to the needs and interests of the poor and mobilizes resources and creates opportunity; and the agency, which is responsible for determining needs, developing strategies and plans, and making the best possible use of available resources, and strengths to work toward achieving the mission of the agency and the goals of community action.

Each Community Action Agency is operated locally, led by a volunteer board of directors consisting of one-third members of the low-income community, one-third public officials, and one-third members of the private sector. As each community is unique in their needs for assistance, services provided by each CAA varies, although the promise of Community Action is the same, "Community Action changes people's lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other."

As a member of the network of Community Action Agencies across the country, CSRA EOA, Inc. uses a results-oriented and outcome-focused approach to managing and operating programs and services that promote self-sufficiency, family stability and community revitalization and strengthening to reduce and alleviate poverty, through empowerment and helping people help themselves and each other.

## CSRA Service Area

CSRA Economic Opportunity Authority, Inc. (CSRA EOA) is a private, non-profit Community Action Agency, created in January 1966 and serving the Central Savannah River Area, which includes Burke, Columbia, Emanuel, Glascock, Jefferson, Jenkins, Lincoln, McDuffie, Richmond, Screven, Taliaferro, Warren, and Wilkes counties and also provides Head Start in Bullock County. Additionally, our Supportive Services for Veteran Families serves a 20-county area and specific demographics and other data are included in an Appendices for the SSVF Program.

Figure 1 CSRA EOA, Inc. Service Counties for CSBG and Head Start

## Mission Statement

The agency's mission is to leverage resources, empower people, and advocate to alleviate poverty in the CSRA. We work to promote self-sufficiency and ease the human suffering of the CSRA citizens, by acting as a catalyst within the low-income community to identify poverty-related and human rights problems and to identify resources and develop services to address those problems; promoting the attitude of self-help in the low-income community; providing community education to the low-income population, raising their awareness of their rights as citizens and focusing their attention on the in the CSRA causes of poverty and human rights problems; and working with the community, rather than for the community, to promote self-sufficiency and leadership among the poor.

## Programs \& Services

Toward achieving our mission, the agency utilizes a wide range of tools to address the needs of the community, including the operation of programs such as:
$>$ Head Start
$>$ Early Head Start
$>$ Weatherization
> Low-Income Home Energy Assistance Program
$>$ Supportive Services for Veterans' Families
> Coordinated Intake and Assessment
> Permanent Supportive Housing for Homeless Persons and Families with Disabilities
$>$ Senior Nutrition and Wellness
> HOPE: Housing Counseling, Foreclosure Intervention, Home Buyer Education, Financial Literacy/Capabilities (Financial Literacy Workshops and Mini-Conferences), "The Way Home" Individual Development Account Project, and Home Possible.
> Family Self-Sufficiency \& Support Program (CACs): Intake \& Referral, Case Management, Emergency Assistance (Housing, Utilities, Food), Personal Household Items, Budgeting Assistance.
$>$ Job Fairs, Resource Fairs, and Health Fairs
> Partnerships and participation in Collaborative efforts and Continuums of Care.

## Purpose of Report

Community Action Agencies conduct Community Needs Assessments (Community Assessments for Head Start), at least once every three years, with updates as needed, to help guide the strategic planning, operational planning, and program service delivery of the agency. In 2001, the U.S. Department of Health and Human Services ("USDHHS") issued Information Memorandum 49, requiring eligible community action agencies to conduct needs assessments and use the results of the assessments to design programs to meet community needs. In 2015, USDHHS issued Information Memorandum No. 138 establishing Community Services Block Grant (CSBG) Organizational Standards requiring CAAs to conduct a Community Needs Assessment and develop a Community Action Plan to address the needs identified in the needs assessment.

The report and the appendices provide current poverty data in the CSRA, its prevalence in relation to age, gender, and race/ethnicity, other factors including employment, income, education, disabilities, housing, transportation, and other factors that may contribute to the causes or conditions of poverty, provides an analysis of both qualitative and quantitative data, and includes key findings on poverty and the needs of the poor in the CSRA. Information from the Community Needs Assessment is used to inform core agency services and efforts with the community to address the causes and conditions of poverty.

## Community Assessment (Needs/Strengths) Methodology

The research and data collection for this needs assessment was guided by the framework required by both Community Services Block Grant and Head Start/Early Head Start. A Community Needs Assessment Work Group, comprised of staff members and board planning and evaluation committee members reviewed and analyzed aggregated data. Senior leadership, and key program staff, developed the needs statements included in our Key Findings. Members of the CSRA EOA, Inc. staff who contributed significantly to this document include: Lola W. Johnson, Sharon DuBose, Mary Harrison, Ernestine Smith, Keesha Johnson, and Shaundra Dority. Sharon DuBose (Planner/Evaluator) served as lead in facilitating data collection and data analysis.

In the appendices, for each Report (14-County, 13-County, 11-County, and 20-County) a Methodology and Source documents page is provided at the end of the document.

## Methods Used to Gather Data for Community Assessment (Needs/Strengths)

> Utilizing a listing from the previous Community Needs Assessment, a plan for data collection was developed with the agency Department Heads, with input to the Department Heads from staff members in their departments.
$>$ Online research of statistical data from government and nonprofit resources (see Data Sources section of this report).
$>$ Surveys were updated from previous surveys used, and were approved by the Department Heads before use in collection.
$>$ Department Heads worked with staff and developed and submitted a list of partner agencies to survey.
> Utilized SurveyMonkey for online surveys.
$>$ Online assessment tool was used to gather data to determine requests for services (implemented as a result of the COVID-19 Pandemic).
$>$ Utilized data from previous updates to assist with information normally obtained during resource fairs and forums, as due to the Pandemic, we could not hold these events during the data collection and analysis phases of this process this year.
> Database for reports on presenting needs, services utilized, and barriers.
$>$ Customer Satisfaction surveys on services requested and unmet needs.
> Data Analysis with Departments, Department Heads and Board of Directors Planning \& Evaluation Committee.

Numerous sources were consulted including national, state and local databases, state and county government reports, and other community agency data. Opinions and perceptions were also collected from stakeholder groups including program participants/clients, community partners, CSRA EOA, Inc. staff members and volunteers, the agency Board of Directors, and local elected officials.

Surveys were distributed by a SurveyMonkey email link to partners, local government, agency staff members and volunteers, and the Board of Directors, as well as to clients for whom we had an email address in the database. The link was also available on the agency Website. As a result of the COVID-19 Pandemic, hard copy surveys were not utilized this year. The Appendices include the survey forms (general population and target stakeholders), survey results, and a list of partners and elected officials to whom the surveys were distributed throughout the area. We utilized data from materials collected while completing CNA Updates in 2019 and 2020 due to the inability to hold public forums during this process.

## Demographic Profile of the CSRA

## Community Profile

The CSRA is located along the eastern border of Georgia, with the Savannah River serving as the border between Georgia and South Carolina. Over the past 19 years, the total population in the 14county area grew by 16.53 \%, increasing from 481,576 persons in 2000 to 561,189 in 2019 for an estimated increase of 79,613 persons. The overall population in Georgia increased by $27.09 \%$ during that same time period. In two counties of our service area, the population grew significantly (exceeding state or national population growth); these were Columbia at $68.79 \%$ and Bulloch at $35.97 \%$. Six of our rural counties continued to see population loss, including Jefferson,

Percent Change in Population

Figure 2 Population Change 2000-2019 Census/ACS Lincoln, Screven, Taliaferro, Warren, and Wilkes (same six counties as in 2018 CNA). Taliaferro County has had a decrease in population of 22.44\% from 2000 to 2019.

The community includes 196,327 households, with 128,658 families; $14.16 \%$ are age 65 and over (compared to $13.52 \%$ in Georgia), and $11.43 \%$ of the population over age 18 in the 14county area are Veterans (compared to 8.02\% for Georgia). Racially, approximately 54.9\% of the area is white, $38.4 \%$ is black, $2 \%$ is Asian and the balance are spread across other races and mixed race. Some counties, including Jefferson, Richmond, Taliaferro and Warren, are majority black, with Richmond County (highest population) 56.5\% black, $37.1 \%$ white and $2.6 \%$ mixed.

| Report Area | Total <br> Population | White Total | Black <br> Total | American Indian Total | Asian Total | Native <br> Hawaiian | Some Other Total | Mixed <br> Race |

| United States | 324,697,795 | 235,377,662 | 41,234,642 | 2,750,143 | 17,924,209 | 599,868 | 16,047,369 | 10,763,902 |

## Poverty Snapshot

There are a total of 196,327 households in the 14-County CSRA with 35,617 (18.14\%) living at or below $100 \%$ of the Federal Poverty Level, an increase from 2000-2019 of 0.63\%, less than the increase of the State rate (1.2\%) and the United States rate (1.0\%). The Poverty Rate (ACS 2015-2019) is $19.23 \%$ (as compared to the state rate of $15.09 \%$ ) with 103,629 of 539,026 people living at or below the poverty rate ( $100 \% \mathrm{FPL}$ ). For the CSBG eligible population, the poverty rate for people at or below 125\% FPL was 24.15\% (ACS 2015-2019) and the poverty rate for people below 200\% FPL was $38.77 \%$, as compared with the $34.26 \%$ state rate.

Figure 3 Change in Poverty Rate: US Census SAIPE 2019

CSRA (14-County) (0.63\%)
Georgia (1.2\%)
United States (1.0\%)

Our area continues to exceed the poverty rate of the state in percent of poverty-female householders as well, with $67.3 \%$ of the CSRA families in poverty female households, as compared to the state rate of $57.1 \%$.

Table 1 Population in Poverty, Poverty Rate Trend 2000-2019 US Census

Note: changes in poverty rate that increased $2 \%$ or greater are in red, changes in poverty rate that decreased are in blue.
The 2015-2019 US Census ACS poverty rates for our area are slightly different than the US Census Estimates, with listed highest to lowest, Jenkins County suffering a rate of $30.46 \%$ of its population in poverty, Warren 26.84\%, Bulloch 26.42\%, Jefferson 24.63\%, McDuffie 23.96\%, Wilkes 23.65\%, Richmond 23.02\%, Screven 22.45\%, Burke 22.16\%, Emanuel 22.11\%, Taliaferro 21.10\%, Lincoln 20.62\%, Glascock (18.87\%), and Columbia (7.46\%). Columbia County is the only county in the CSRA with a lower poverty rate than Georgia; it is lower even that the US poverty rate.

NOTE: Throughout this report, the Report Location in gauge tables refers to the counties of Bulloch, Burke, Columbia, Emanuel, Glascock, Jefferson, Jenkins, Lincoln, McDuffie, Richmond, Screven, Taliaferro, Warren and Wilkes in Georgia.

Traditionally, CSBG Services, and many of the programs in the Community Services Department are operated using an income eligibility determination ${ }^{1}$ based on $125 \%$ of the FPL. As a result of the COVID-19 Pandemic, that rate was increased to $200 \%$ of FPL and there is legislation in Congress that may raise the level to $200 \%$ of FPL post-pandemic, but that has not yet been determined. As noted in Figure 5, 24.15\% of the population, or 130,157 people are financially eligible to receive CSBG services at the $125 \%$ of FPL rate. At 200\% FPL in the ACS 2019, 208,976 people ( $38.77 \%$ ) of the population would be financially eligible to receive services.

Figure 6 Population in Poverty By Race, Number ACS 2015-2019

## Population in Poverty By Race, Number

[^0]In the CSRA, $18.14 \%$ of households are in poverty, as compared to $14.2 \%$ in Georgia and 12.9\% in the United States. Over $25 \%$ of the Hispanic/Latino/Spanish Origin population is in poverty; 1.3\% of those served by the CSBG Department (non-LIHEAP) were Hispanic, Latino or Spanish Origin persons. In comparing our CSBG Service Demographics to the overall community demographics, whereas $38 \%$ of the population living in poverty is white and almost $55 \%$ black, just under $10 \%$ of the population receiving Community Service Department Program services (other than LIHEAP) are white, and $86 \%$ are black, with the remaining $4 \%$ mostly mixed race. The poverty rates ${ }^{2}$ for populations by race are as follows:

- White $13.36 \%$
- Black or African American 27.46\%
- Native American/Alaska Native 36.83\%
- Asian 12.77\%
- Hawaiian/Pacific Islander 51.91\%
- Multiple Race $19.17 \%$
- Other Race 25.46\%

The child poverty rate in the CSRA exceeds the rate of Georgia and of the United States. As noted in the figure below, we have extremely high poverty rates for children overall, other than Asian and White children.

Figure 7Child Poverty Rate Ages 0-17, US Census ACS 2015-2019

## Child Poverty Rate Age 0-17 (ACS) 2015-2019.

- Native Hawaiian/Pacific Islander: $55.26 \%$
- Some Other Race: 37.69\%
- Multiple Races: 22.13\%

[^1]Poverty rates for the subset of children ages 0-4 are similar to those for the overall 0-17 age range, with a $29.8 \%$ poverty rate (as compared to the $23.7 \%$ Georgia rate and the $20.3 \%$ United States rate) with a total of 10,529 children 0-4 in poverty.

Another population traditionally served are Senior Citizens. In the CSRA, $11.3 \%$ of senior citizens (65+) live at or below $100 \%$ FPL, for a total of 8,714 as compared to the total senior popuation of 77,260 in the area. The CSRA is over $1 \%$ higher than the Georgia rate of $10.2 \%$ and $2 \%$ higher than the US rate of $9.3 \%$. An important note: $13.08 \%$ of females $65+$ live in poverty as compared to $8.88 \%$ of males. As it relates to ethnicity and race, the rate for senior citizens who are Hispanic or Latina is $16.36 \%$ as compared to an $11.19 \%$ rate for non-Hispanic or Latino. The rate for seniors by race is located to the right.

- White: 7.53\%
- Black or African American: 19.17\%
- Native American/Alaska Native 23.7\%
- Asian: 9.08\%
- Other Race: 44.03\%
- Multiple Race: 5.44\%

## Employment Snapshot

Figure 8 US DOL, Bureau of Labor Statistics, 2021. Unemployment Rate
In FY 2020, 50\% of those served were unemployed, $30 \%$ worked full time, right at $14 \%$ were retired and the balance worked part time, but during the first three quarters for FY 2021, 56\% of those receiving services were working full time with the average personal income of $\$ 20,72.51$ (hourly rate $\$ 11.14$ ). Though this rate of pay may provide sufficient income for a single person, the majority of our households are families with one to two children.

From April 2017 through April 2021, the unemployment rate has moved from $5.1 \%$ in 2017 , to $4.3 \%$ in 2018, $3.7 \%$ in 2019, to $10.7 \%$ in $2020^{3}$, back down to $4.0 \%$ in $2021^{4}$. Though the unemployment rate is $4.0 \%$, there was a decrease in persons in the labor force between 2020 and 2021 that does not match the demographics of the community. Thus many dropped out of the labor force that may return to the labor for and cause an increase in the unemployment rate moving forward. Compared to the State, we had a slightly higher unemployment rate, but the unemployment rate for the CSRA Region was lower, overall, than the rate for the United States. In 2020, average weekly wages were $\$ 1,001$ for the Augusta Metropolitan Statistical Area, with a high of $\$ 1,674$ in Construction, to a low of $\$ 360$ in Leisure and Hospitality. The education of the workforce included 14.1\% with no high school diploma, 31.2\%

[^2]with high school only, $21.6 \%$ with some college, $9.0 \%$ with an Associate's Degree, $146 \%$ with a Bachelor's degree and 9.5\% with a Graduate or Professional Degree. Both the State of Georgia and the United States had fewer people in the workforce with no high school diploma or high school only, than did the CSRA.

It is estimated that $17.59 \%$ of adults lack literacy skills as compared to the State average of $17 \%$.

## Births, Head Start and Pre-School

Though the overall population has been increasing, births throughout the CSRA between 2016 and 2020 have been decreasing, with a total of 7,405 in 2016, and only 6,871 in 2020.

Figure 9 Births by County 2016-2019, Georgia Department of Public Health, OASIS.

Throughout the CSRA, there are over 36,000 children under the age of 5, with 10,529 between the ages of $0-4$ living in Poverty and 32 Head Start and Early Head Start sites available to serve them. Of children in the CSRA between the ages of three and four (3-4), $42.72 \%$ are enrolled in school, as compared to $50.26 \%$ in the State and $48.32 \%$ in the United States. We lag behind the state and US in getting our children enrolled in preschool. We have an estimated 8,312 children ages 3-4 not attending preschool ${ }^{5}$ as noted in the table below.

| Column1 | Number | Percent |
| :--- | ---: | ---: |
| Bulloch | 1,341 | $69.60 \%$ |
| Burke | 266 | $54.00 \%$ |

| Wilkes | 93 | $30.10 \%$ |
| 14 County CSRA | 8312 |  |

## Education

Percent Population with No High School Diploma

Education is an important factor in obtaining living wage jobs in the area, and the percent of our population in the CSRA with no high school diploma still exceeds that of the state. In 2015-2019, $85.9 \%$ of people 25 years and over had at least graduated from high school or had a GED in the CSRA region, as compared to 87.14\% in Georgia and 88\% in the United States. Of those, 24.1\%

- Report Location (14.1\%)
- Georgia ( $12.86 \%$ ) - United States (12.0006) had a bachelor's degree or higher as compared to the much higher $31.3 \%$ for Georgia and the 32.2\% for the US. An estimated 14.1\% had not obtained a high school diploma or GED. Columbia County was our only county with single digits (7.26\%) for those without a high school diploma, while, the counties with the highest number of residents without a high school diploma (all over 20\%) were Emanuel, Glascock, Jefferson, Jenkins, Taliaferro, and Warren.

Teens who are high-school dropouts, ages 16-19 decreased overall for the CSRA and in most counties, but Burke, Emanuel, McDuffie,

Popwlation Age 16-19 Not in School and Not Emploved, Fercent

[^3]and Wilkes increased from 2011-2015 to 2015-2019. It is important to note that the CSRA has 8.69\% of teens ages 16-19 not in school and not employment; higher than both the state rate of $7.86 \%$ and the United States rate of $6.61 \%$. See the appendices for more data on this age group. OF the 14,510 children ages 3-4, it is estimated that 6,198 are enrolled in school for a $42.72 \%$ rate, as compared to the $50.26 \%$ for Georgia.

## Income

The Per Capita Income of the CSRA is $\$ 25,557$, as compared to $\$ 31,067$ for Georgia and $\$ 34,103$ for the United States. The Median household income ranges from a low of $\$ 27,375$ in Jenkins County, to a high of $\$ 82,339$ in Columbia County, as compared to the Georgia Median Household income of $\$ 58,700$ and the United States at $\$ 62,843$. Half of the CSRA counties have median incomes in the $\$ 30,000$ 's (Emanuel, Jefferson, Lincoln, Screven, Taliaferro, Warren and Wilkes), with another five in the $\$ 40,000$ 's (Bulloch, Burke, Glascock, McDuffie, and Richmond).

Per Capita Income by County, ACS 2015-19
Over $\$ 30,000$
$\$ 25,001$ - $\$ 30,000$
$\$ 20,001-\$ 25,000$
Under \$20,001
No Data or Data Suppressed
Report Location

In the 14 County CSRA Region, we have households that survive with less than $\$ 10,000$ annual income ${ }^{6}$, including 9.2\% in Bulloch, 9.9\% in Burke, 3.1\% in Columbia, 11.4\% in Emanuel, 8.4\% in Glascock, 14.5\% in Jefferson, 12.0\% in Jenkins, 10.4\% in Lincoln, 9.5\% in McDuffie, 10.8\% in Richmond, 9.4\% in Screven, $12.0 \%$ in Taliaferro, 13.4\% in Warren, and $7.5 \%$ in Wilkes. Family households generally have a lower rate at less than $\$ 10,000$, often significantly, but it is important to note that these families would all be living below $100 \%$ of the FPL of $\$ 12,760$ for a single person in 2020. For the range of $\$ 10,000$ to $\$ 14,999$, the ranges run from a low of $1.7 \%$ in Columbia to a high of $11.8 \%$ of households in Jenkins County.

| Household <br> /Family Size | $\mathbf{5 0 \%}$ | $\boldsymbol{*} 100 \% *$ | $\mathbf{1 2 5 \%}$ |
| :---: | :---: | :---: | :---: |
| $\mathbf{1}$ | 6,380 | $\$ 12,700$ | 15,950 |
| $\mathbf{2}$ | 8,620 | $\$ 17,240$ | 21,550 |
| $\mathbf{3}$ | 10,860 | 521,720 | 27,150 |
| $\mathbf{4}$ | 13,100 | 526,200 | 32,750 |
| $\mathbf{5}$ | 15,340 | $\$ 30,680$ | 38,350 |
| $\mathbf{6}$ | 17,580 | $\$ 35,160$ | 43,950 |
| $\mathbf{7}$ | 19,820 | 539,640 | 49,550 |
| $\mathbf{8}$ | 22,060 | $\$ 44,120$ | 55,150 |
| $\mathbf{9}$ | 24,300 | 548,600 | 60,750 |
| $\mathbf{1 0}$ | 26,540 | $\$ 53,080$ | 66,350 |

[^4]Of respondents in our online CNA survey, $47.54 \%$ stated they had income of $\$ 10,000$ or less annually, and $33.91 \%$ stated their income was between $\$ 10,000$ and $\$ 24,999$.

## Housing

The U.S. Census Bureau estimated there were 123,840 owner occupied homeowners of the estimated 240,945 housing units in the report area in 2019. This $51.40 \%$ is a decrease over the $67.02 \%$ owner occupied homes in 2000. Also, though we had previously had a slightly higher homeownership rate than the state, we now have a lower rate, with Georgia at 55.51\% homeownership and the United States at $56.23 \%$. One key issue to note is that rental households are most likely to be cost burdened than homeowners, and owner-occupied households whose mortgage is paid off are the least likely to be cost burdened. To be considered "cost-burdened", a household spends $30 \%$ or more of the household income on housing costs. In the 14 County CSRA ${ }^{7}$ :

- $24.92 \%$ of homeowners spend $30 \%$ or more of income with Mortgage $(17,890)$
- $12.09 \%$ of homeowners spend $30 \%$ or more of income on home without Mortgage $(6,292)$
- $46.49 \%$ of Renters spend $30 \%$ or more of income with Rent $(33,697)$.
- Richmond County $51.78 \%$ of renters spend $30 \%$ or more of income with Rent $(17,507)$.
- The CSRA has a lower rate of eviction filings than Georgia (4.03\% for the CSRA, 16.82\% for Georgia), and a lower eviction rate ( $0.41 \%$ as compared to $4.71 \%$ ).
A chart with cost burdened households by tenure is included in the appendices.
Note: This indicator is compared to the state average in the Appendices.
Data Source: US Census Bureau, American Community Survey. 2015-19. Source geography: tract

An issue to note is the affordability of homes at various percentages of the Area Median Income. The CSRA has more units affordable at most income levels as compared to AMI than

[^5]Georgia or the United States. Unfortunately, note the low number available for people at or below $50 \%$ of the AMI.

Of Community Needs Assessment Survey Respondents, $59.36 \%$ ( 929 respondents) stated that one of the top seven (7) major causes of poverty in the area was the high cost of housing. This was the number 1 response on the survey, with the high cost of living (groceries, insurance, transportation, childcare, medical care) second with $55.08 \%$ of the respondents.

## Key Findings \& Identified Needs

The following findings and identified needs are to be used in planning sessions for strategic and programmatic/operational planning and may guide future projects, staff training, and resource development activities, but the needs are vast and many may be beyond the scope of the resources available to meet the needs. The purpose of this comprehensive assessment is to inform strategic choices.

## Key Finding \# 1

Employment alone will not get households out of poverty; the area needs more living wage jobs. This requires both the community level of job creation and the family level of skills development in preparation for living-wage jobs.

In Georgia, the minimum wage remains at $\$ 7.25$ per hour, thus a person earning minimum wage who works full time, 52 weeks per year, earns less than $125 \%$ of the Federal Poverty Level ( $\$ 15,080$ as compared to $125 \%$ of the poverty level at $\$ 15,950$ ). If that person is a single parent of one child, he or she would need to earn at least $\$ 10.36$ per hour ( $\$ 414.42$ per week) to be just dollars above $125 \%$ of the FPL for a household of two. Many jobs in the CSRA, especially service jobs, work less than 40 hours per week; often 20-25 to keep the company from having to provide insurance. The Community Needs Assessment Survey results also indicated, based on the opinion of those taking the survey, that living-wage jobs were a major need in the CSRA.

For those living wage jobs available, many low-income persons lack the education and skills to access those jobs and would benefit from apprenticeship opportunities and on-the-job training. In the Community Needs Assessment Survey, 48.37\% of respondents listed "Not Enough Living Wage Jobs" as a major cause of poverty in the CSRA.

## Key Finding \# 2

The COVID-19 Pandemic has had a major impact on employment, availability of childcare, education-related outcomes, health, especially mental health, credit rating/scores, and the cost of living, especially housing and home maintenance/ home repair in many of our counties. These are due to both community level pandemic shut-down of employment, schools, day care centers, service providers, etc., and family level of illness and individual impact of crisis on health and wellbeing.

Key Finding \# 3
The high cost of housing (and utilities), in comparison to income, creates a significant housing cost burden on many households. Community level need more affordable housing in the community as it relates to income of community residents.

Almost one third of households pay over 30\% of their income in housing costs. This information offers a measure of housing affordability and excessive shelter costs and demonstrates the fact there is an "at-risk" population. Homeowners are less likely to be "housing cost burdened" than renters, especially if they have paid off their mortgage, but the homeownership rate has dropped from 2000 to 2016 in every county in the CSRA, from a rate of $67.02 \%$ in the 14-County area in 2000 to $51.73 \%$ in the 14-County area in 2016 (13-County CSBG area $68.20 \%$ dropped to $52.84 \%$ and 11 -County HS area $66.68 \%$ dropped to $52.17 \%$ ).

In the community needs assessment survey, 59.36\% of respondents listed "High Cost of Housing" as a major cause of poverty in the CSRA, and $55.08 \%$ listed "High Cost of Living" (including utilities, groceries, childcare, etc.) as a major cause of poverty. On July 1, 2021, in the Augusta Chronicle, there was a headline across the front page, "Whatever pays the rent: Augusta-area apartments grow pricier". The article stated that the average rent for a onebedroom apartment in Augusta is now $\$ 845$ - $\$ 849$, with a two-bedroom price of $\$ 950^{8}$. Based on the US Census, the average monthly costs for home owners in the CSRA is $\$ 988$ per month, with costs ranging from $\$ 659$ in Jenkins County to $\$ 1,284$ in Columbia County. Mortgages of $\$ 400$ a month are all but gone, with mortgages of $\$ 400-\$ 599$ a small minority. The majoring of

[^6]homes in the CSRA, have mortgages with owner-occupied housing costs between $\$ 1,000$ and $\$ 2,499$. There are 26,370 homes with monthly costs ranging $\$ 1,000$ to $\$ 1,499$ and only 24,477 below $\$ 1,000$ per month for homeowners. Affordability of homes ranges from 1.9 to 3.34 times the median household income for the area in the CSRA.

Figure 12 Homeownership \& Housing Affordability of Homes, scorecard.propseritynow.org

## AFFORDABILITY OF HOMES

Key Finding \# 4
Single-Female Head of Households continue to be the highest household type in poverty across the service area and based on earnings and potential retirement, this trend may continue. This is a community level need with supports and equitable pay for females needed to decrease poverty for single parent female headed households. This need is especially relevant for the Head Start program.

Female headed households and female senior citizens are far more likely to live in poverty than male headed households, 2-parent households and male senior citizens. The US Department of Labor published a report in January 2016 that stated that "Women's earnings as a percentage of men's varied by occupation" and that "women who worked full time in wage and salary jobs had median usual weekly earnings" that were " 83 percent of men's median weekly earnings" (https://www.bls.gov/opub/ted/2016/womens-earnings-83-percent-of-mens-but-vary-byoccupation.htm). There are many studies that discuss reasons for this, including differences in wages for traditional jobs held by each gender, family caregiving responsibilities that often cause interruptions in career paths for women, and the possibility of gender discrimination (http://www.pewresearch.org/fact-tank/2018/04/09/gender-pay-gap-facts/).

## Key Finding \# 5

Non-White and non-Asian households continue to experience poverty at a much higher rate than White and Asian households in the CSRA.

In the 14-County CSRA area, the poverty rate for Asian and white people is significantly lower than that of black or African American and Native Populations; this is especially apparent in the child poverty rate, with $14.78 \%$ of white children (ages 0-17) in poverty, while $42.54 \%$ of black or African American children live in poverty. For Native American children, the poverty rate is $71.57 \%$ and for Native Hawaiian/Pacific Islanders children it is $55.26 \%$. The Stanford Center on Poverty and Inequality released a report in 2017 that stated, "Though some gaps have narrowed, there remain substantial racial-ethnic differences in poverty, with blacks and Native Americans continuing to experience the highest poverty rates, Hispanics following with slightly lower rates, and whites and Asians experiencing the lowest poverty rates."
(https://inequality.stanford.edu/sites/default/files/Pathways SOTU 2017 poverty.pdf) The CSRA is indicative of those findings. Intergenerational poverty may be a contributing factor to this pattern, but the difference in poverty rate cannot be contributed to that factor alone. Inequalities and lack of equity must be addressed to reduce the gap and reduce poverty overall in the CSRA.

## Key Finding \# 6 <br> Early Childhood Programs are more accessible for children in urban and suburban areas, through Head Start and lottery funded Pre-K programs, but are not as accessible to children in rural communities due to transportation issues.

Head Start's program design is more comprehensive than the Pre-K Lottery funded child care slots and helps children become ready for kindergarten, while also helping meet the health and nutritional needs of the children. There are 36,869 children under age 5 in the 14-county area, with an estimated 10,529 at or below the poverty level, and 32 centers to serve them. The CSRA spans fourteen counties and covers over $9,000 \mathrm{mi}^{2}$, many of which include 35 mile per hour back roads making many rural low-income households unable to access Head Start services because they are too far to bus, and the family does not have the needed transportation to get children to the site. Lack of the services, nutrition, and education associated with Head Start puts the low-income children at risk.

## Key Finding \# 7

Low Income Senior Citizens continue to need support systems, in additional to Social Security and Medicare, to survive.

The poverty rate for senior citizens in the 14-County area was $11.3 \%$, with 8,714 persons $65+$ living at or below $100 \%$ of the FPL. These rates are higher than the Georgia rate of $10.2 \%$ and
the United States rate of 9.3\%. In the Forum at the Senior Center in Burke County, participants stated that Social Security and retirement payments do not keep up with the cost of living, and the cost of Medicare cuts into the check, causing many to be in poverty. Groceries, utility costs, medical/dental costs and home repairs often are too high. Additionally, many senior citizens do not have savings to make needed home repairs and many also lack transportation and must often rely on others, whom they must often pay or give gas money to, to take them places they need to go.

## Community Needs and Priorities

Findings from our needs assessment indicate broad needs for services which support lowincome working households (especially female-headed households with children), Veterans, senior citizens, persons with disabilities, children, teens, returning citizens (ex-offenders), and persons with mental health, substance abuse/addiction and alcohol abuse/addiction. Lack of transportation, living wage jobs, education, affordable child care, affordable housing, affordable utilities, affordable medical and dental care, and the high cost of groceries were all considered causes of poverty in the area.

Continuing to operate and provide support services through our Head Start, Early Head Start, Emergency Assistance, Homeless Prevention, Supportive Services for Veteran Families, and Coordinated Intake and Referral Programs will help support low-wage workers, Veterans, and low-income families as they work to improve skills, employment history, and education and try to access living wage jobs as they become available in the community.

Recommendations for combating the causes and conditions of poverty include prioritizing career pathways and working with the community and economic development in partnership to attract living wage jobs; integrating direct services with community development; finding creative solutions to transportation; continuing to provide quality child education and support services and family services for Head Start and Early Head Start families; developing and expanding partnerships to create more affordable housing options; continuing the work with the Continuums of Care to decrease homelessness across the CSRA through Coordinated Intake and Assessment and the Supportive Services for Veteran Families; increasing home ownership opportunities through housing counseling, financial literacy, the IDA program, and homebuyer education; and to continue providing home weatherization to reduce energy costs for low income families.

## Considerations for the Future

Though there is generally a large list of needs not being fully met, we must examine the needs in relation to our mission as an agency then develop a list of which needs are addressable given
funding availability and staffing. We specify which services we will be able to devote our energies and resources to, in order to meet the needs of the community in the most effective manner. Priorities must be reviewed and possible consequences of implementing or choosing not to implement a program are compared before determining which programs and services will remain, which will be expanded, which will be reduced and what new programs and services we may want to add to enhance our success in meeting our agency mission and our outcome measures. We will continue to work to bring together partners so we may effectively utilize available resources, and we will continue to analyze the trends, the community concerns, and the issues that most concern the citizens. As a result of the COVID-19 Pandemic, it will be important to continuously update and review data as the major changes being implemented at the federal and state levels for services and assistance to our communities will continue as the various packages for assistance pass Congress. Employment, Housing, Education and Head Start related issues due to closures, Credit re-building especially due to increased debts, the impact on our small and micro-enterprises and mental and physical health must all be continually reassessed.

## Community Resources and Strengths

Key resources throughout the CSRA that provide assistance for those living in poverty and that help people out of poverty continue to include CSRA EOA, Inc. programs and services, Housing Authorities, the Area Agency on Aging, Goodwill Industries, The Salvation Army, Communities in Schools, Family Connections, Region 7 Workforce Development (Areas 12 and 13), the Department of Public Health, the local transit systems in most counties, the Technical College of Georgia, the public school systems (especially in the Head Start counties), the faith-based community, including churches and other nonprofits that help provide resources, homeless shelters, training, and mentoring, government entities such as Department of Family and Children Services (TANF, SNAP/food stamps, Child Care), Georgia Pre-K funded child care providers, and other nonprofit entities to whom we refer people for services.

Several counties in the area are growing, adding jobs and adding living wage jobs. Additionally, though many rural areas have low access to health and dental care, in summer 2021 five counties in the CSRA served as a training site for the military (Department of Defense Innovative Readiness Training) receiving free medical, dental, and other health care.

## Data Sources

Data sources consulted for this Community Needs Assessment include numerous federal, state, and local databases and statistical reporting systems. The COE Developed CSBG Organizational Standards - Category 3 Community Assessment - Technical Assistance Guide recommended the Community Action Partnership (CAP) Assessment Tool to gather demographic and geographical data, which was used as a primary resource and supplemented with a wide variety of resources.

The CAP Assessment Tool utilizes primarily the US Census, including the American Community Survey 5-year Estimates, Small Area Income and Poverty Estimates; Centers for Disease Control and Prevention and the National Center for Health Statistics; US Department of Labor Bureau of Labor Statistics; US Department of Health \& Human Services, HRSA - Administration for Children and Families; and other national data resources.

Local measures were compared to the CSRA, across counties, and with state and national benchmarks to provide context for understanding the data and interpreting the findings. Sources utilized in the compilation of this data and in data analysis include:
> American Public Transportation Association (www.apta.com/resources)
$>$ Augusta Housing Authority Report
> Augusta-Richmond County Continuum of Care
> Bright from the Start: Georgia Department of Early Care and Learning
$>$ Community Action Partnership Assessment Tool

Stakeholder input was collected through focus groups and surveys with participants, the general population, partner organizations, local elected officials, staff and volunteers.
> A pre-forum survey was conducted through the Burke County Senior Center, with 59 respondents to the survey. The forum followed and was attended by more than 60 participants.
> A survey of community partners and elected officials was conducted January 2020 May 2021.
> A survey of program participants/clients, the general population, staff and volunteers was conducted January 2020 - May 2021.
> CSRA EOA, Inc. Customer Satisfaction Survey Results.
> Board of Directors Planning \& Evaluation Committee and the agency Department Heads data review session.
> Data review with the Community Services Department Leadership Team.
*Due to the COVID 19 Pandemic, forums and face-to-face interviews did not occur. Also, interviews were limited due to significant increase in services and reduced staff hours as a result of the Pandemic.

## Population Profile

## Population Change

Population change within the report area from 2000-2019 is shown below. During the sixteen-year period, total population estimates for the report area grew by 16.53 percent, increasing from 481,576 persons in 2000 to 561,189 persons in 2019.

| Report Area | Total Population, 2019 ACS | Total Population, 2000 Census | Population Change from 2000-2019 Census/ACS | Percent Change from 2000-2019 Census/ACS |
| :---: | :---: | :---: | :---: | :---: |
| Report Location | 561,189 | 481,576 | 79,613 | 16.53\% |

## Population Age 65+

Of the estimated 561,189 total population in the report area, an estimated 79,448 persons are adults aged 65 and older, representing $14.16 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying
during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 75.62 of the total population. Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | Life Expectancy at Birth, $2010-$ 2015 |
| :---: | :---: | :---: | :---: |
| Report Location | 544,783 | 75.62 |  |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| :---: | :---: | :---: | :---: | :---: | :---: |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age <br> 1 | Ages 1- <br> 4 | Ages 5- <br> 14 | Ages 15- <br> 24 | Ages 25- <br> 34 | $\begin{gathered} \text { Ages } 35- \\ 44 \end{gathered}$ | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $14.6 \%$ have at least a college bachelor's degree, while $31.2 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School Diploma | High School Only | Some College | Associates Degree | Bachelors Degree | Graduate or Professional Degree |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5 . Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 32 Head Start programs with a rate of 8.68 per 10,000 children under 5 years old.

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 83,629 homes in the report area, there were 3,374 eviction filings, for an eviction filing rate of $4.03 \%$. 345 of the eviction filings ended in an eviction, for an eviction rate of $0.41 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population |  |
| :--- | ---: | ---: |
| Bulloch County, GA |  | Median Household Income |
| Burke County, GA | 76,120 | $\$ 48,788$ |
| Columbia County, GA | 22,520 | $\$ 42,632$ |
| Emanuel County, GA | 150,705 | $\$ 88,285$ |
| Glascock County, GA | 22,533 | $\$ 38,529$ |
| Jefferson County, GA | 2,996 | $\$ 49,350$ |
| Jenkins County, GA | 15,618 | $\$ 35,379$ |
| Lincoln County, GA | 8,793 | $\$ 32,808$ |
| McDuffie County, GA | 7,856 | $\$ 45,299$ |
| Richmond County, GA | 21,455 | $\$ 44,473$ |
| Screven County, GA | 201,852 | $\$ 44,810$ |
| Taliaferro County, GA | 13,989 | $\$ 42,331$ |
| Warren County, GA | 1,611 | $\$ 37,046$ |
| Wilkes County, GA | 5,297 | $\$ 37,313$ |
| Georgia | 9,844 | $\$ 39,716$ |
| United States | $10,403,847$ | $\$ 61,950$ |

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under $130 \%$ (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 92,989 total public school students in the report area, 64,939 were eligible for the free or reduced price lunch program in the latest report year. This represents $69.8 \%$ of public school students, which is higher than the state average of $60.3 \%$.

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure Population | Food Insecure Population Ineligible for Assistance, Percent | Food Insecure Children | Food Insecure Children Ineligible for Assistance, Percent |

Food Insecurity - Food Insecure Population Ineligible for Assistance

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the 2017 report, LowIncome and Low-Supermarket-Access Census Tracts, 2010-2015. This indicator is relevant because it highlights populations
and geographies facing food insecurity.

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 101,787 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 18,629 disabled persons in the report area received Medicare benefits in 2019.

## Population Age 65+

Of the estimated 481,597 total population in the report area, an estimated 68,448 persons are adults aged 65 and older, representing $14.21 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

Life Expectancy (2010-2015) - Geographic Disparity Report 1

## Life Expectancy (2010-2015) - Geographic Disparity Report 2

The table and chart below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :--- | ---: | ---: | ---: |
| Report Location | 17.4 | 11.0 | 10.1 |
| Burke County, GA | 4.3 | 2.3 | 1.9 |
| Columbia County, GA | 10.4 | 7.3 | 6.7 |
| Emanuel County, GA | 6.5 | 6.4 | 2.5 |
| Glascock County, GA | 0.0 | No data | 0.0 |
| Jefferson County, GA | 1.9 |  | 0.4 |
| Jenkins County, GA | 0.5 | 1.0 | 0.4 |
| Lincoln County, GA | 3.3 | 0.1 | 0.0 |
| McDuffie County, GA | 3.2 | 5.4 | 2.7 |
| Richmond County, GA | 15.6 | 1.6 | 1.5 |
| Screven County, GA | 5.0 | 12.5 | 10.1 |
| Taliaferro County, GA | 0.0 | No data | 3.7 |
| Warren County, GA | 0.8 |  | 2.8 |
| Wilkes County, GA | 2.6 | 0.3 | 0.0 |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column 0 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age <br> 1 | Ages 1- <br> 4 | Ages 5- <br> 14 | $\begin{gathered} \text { Ages } 15- \\ 24 \end{gathered}$ | Ages 25- $34$ | $\begin{gathered} \text { Ages } 35- \\ 44 \end{gathered}$ | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2018.
For the selected area, $14.2 \%$ have at least a college bachelor's degree, while $32.0 \%$ stopped their formal educational attainment after high school.

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5 . Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2018 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 30 Head Start programs with a rate of $9.18 \%$ per 10,000 children under 5 years old.

## Evictions

This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 70,163 homes in the report area, there were 1,154 eviction filings, for an eviction filing rate of $1.64 \%$. 197 of the eviction filings ended in an eviction, for an eviction rate of $0.28 \%$.

Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

## Eviction Filings and Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

| Report Area | White | Black | Asian | Hispanic or Latino |  |

## Income

## Income Levels

Two common measures of income are Median Household Income and Per Capita Income based on U.S. Census Bureau estimates. Both measures are shown for the report area below.

| Report Area | Median Household Income |  | Per Capita Income |
| :--- | :--- | :--- | :--- |
| Report Location | No data |  | $\$ 24,851.26$ |
| Burke County, GA |  | $\$ 42,773$ | $\$ 21,334$ |
| Columbia County, GA |  | $\$ 76,938$ | $\$ 32,509$ |
| Emanuel County, GA |  | $\$ 34,946$ | $\$ 17,981$ |
| Glascock County, GA |  | $\$ 41,686$ | $\$ 21,076$ |
| Jefferson County, GA |  | $\$ 34,300$ | $\$ 18,764$ |
| Jenkins County, GA |  | $\$ 27,311$ | $\$ 16,089$ |
| Lincoln County, GA |  | $\$ 41,014$ | $\$ 26,324$ |
| McDuffie County, GA |  | $\$ 40,199$ | $\$ 21,384$ |
| Richmond County, GA |  | $\$ 37,588$ | $\$ 22,045$ |
| Screven County, GA |  | $\$ 31,797$ | $\$ 21,557$ |
| Taliaferro County, GA |  | $\$ 34,730$ | $\$ 19,897$ |
| Warren County, GA |  | $\$ 35,106$ | $\$ 22,916$ |
| Wilkes County, GA |  | $\$ 55,679$ | $\$ 60,293$ |

## Household Income

Median annual household incomes in the report area for 2018 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population | Median Household Income |
| :---: | :---: | :---: |
| Burke County, GA | 22,550 | \$42,785 |
| Columbia County, GA | 147,295 | \$82,184 |
| Emanuel County, GA | 22,499 | \$37,574 |
| Glascock County, GA | 3,009 | \$42,820 |
| Jefferson County, GA | 15,772 | \$38,274 |
| Jenkins County, GA | 8,827 | \$31,419 |
| Lincoln County, GA | 7,799 | \$46,967 |
| McDuffie County, GA | 21,498 | \$42,768 |
| Richmond County, GA | 201,463 | \$40,168 |
| Screven County, GA | 13,990 | \$39,048 |
| Taliaferro County, GA | 1,665 | \$34,090 |
| Warren County, GA | 5,346 | \$38,352 |
| Wilkes County, GA | 9,884 | \$39,361 |
| Georgia | 10,297,484 | \$58,634 |
| United States | 322,903,030 | \$61,937 |

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent
private employment except for the last line which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

## Notes:

(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure Population | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure Children | Food Insecure Children Ineligible for Assistance, Percent |

Food Insecurity - Food Insecure Population Ineligible for Assistance

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the 2017 report, LowIncome and Low-Supermarket-Access Census Tracts, 2010-2015. This indicator is relevant because it highlights populations and geographies facing food insecurity.

| Report Area | Total <br> Population | Low Income Population | Low Income Population with Low Food Access | Percent Low Income Population with Low Food Access | with Low Food Access |
| :---: | :---: | :---: | :---: | :---: | :---: |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 510 total SNAP-Authorized Retailers with a rate of 11.05 .

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 91,145 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 16,726 disabled persons in the report area received Medicare benefits in 2019.

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service
area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2010) | Access to DL Speeds > 25MBPS (2019) | Percentage of Population with Access to Broadband Internet (DL Speeds > 25MBPS) |
| :---: | :---: | :---: | :---: |
| Report Location | 461,476 | 90.03\% |  |
| Burke County, GA | 23,316 | 73.75\% | - |
| Columbia County, GA | 124,053 | 99.06\% |  |
| Emanuel County, GA | 22,598 | 94.83\% | Report Location (90.03\%) |
| Glascock County, GA | 3,082 | 0.75\% | United States (96.07\%) |

## Housing Age

This indicator reports, for a given geographic area, the median year in which all housing units (vacant and occupied) were first constructed. The year the structure was built provides information on the age of housing units. These data help identify new housing construction and measures the disappearance of old housing from the inventory, when used in combination with data from previous years. This data also serves to aid in the development of formulas to determine substandard housing and provide assistance in forecasting future services, such as energy consumption and fire protection.

## Housing Cost Burden (Owners)

The 2014-2018 American Community Survey (ACS) shows in the report area that 28.53\% of homeowners with mortgages nationwide pay $30 \%$ or more of their income on housing costs. $26.03 \%$ of owners with mortgages and $12.92 \%$ of owners without mortgages spend $30 \%$ or more of their income on housing costs in the report area. $30 \%$ or more of income spent on housing costs is considered a "housing-cost burden".
Total housing units are defined as "total rentals and owned where rent/owned and income known".
The number of occupied units is limited to those where gross rent as a percentage of household income is able to be calculated.

## Housing Cost Burden (Renters)

The 2014-2018 American Community Survey (ACS) shows in the report area that 46.53\% of occupied units paying rent nationwide pay $30 \%$ or more of their income on housing costs. For the study area, $47.34 \%$ of occupied units paying rent have a housing cost burden. When $30 \%$ or more of income is spent on housing costs it is considered a "housing-cost burden".
Total housing units are defined as "total rentals and owned where rent/owned and income known".
The number of occupied units is limited to those where gross rent as a percentage of household income is able to be calculated.

\section*{Period Life Table (2010-2015)}

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column 0 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

\section*{Education}

\section*{Educational Attainment}

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2018.
For the selected area, \(14.6 \%\) have at least a college bachelor's degree, while \(30.9 \%\) stopped their formal educational attainment after high school.

\section*{Head Start}

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5 . Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2018 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 29 Head Start programs with a rate of \(8.16 \%\) per 10,000 children under 5 years old.
\begin{tabular}{|c|c|c|c|c|}

\section*{Vacancy Rates}

The U.S. Postal Service provided information quarterly to the U.S. Department of Housing and Urban Development on addresses identified as vacant in the previous quarter. Residential and business vacancy rates for the report area in the second quarter of 2019 are reported.
For this reporting period, a total of \(5,621.00\) residential addresses were identified as vacant in the report area, a vacancy rate of \(2.1 \%\), and \(1,725.00\) business addresses were also reported as vacant, a rate of \(7.1 \%\).

\section*{Evictions}

This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 80,652 homes in the report area, there were 3,322 eviction filings, for an eviction filing rate of \(4.12 \%\). 324 of the eviction filings ended in an eviction, for an eviction rate of \(0.40 \%\).

Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

Eviction Filing Rate by Year, 2007-2016

\section*{Eviction Filings and Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016}

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic
census block groups.

\section*{Jobs and Earnings by Sector}

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last line which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals
(L) - Less than \(\$ 50,000\), but the estimates for this item are included in the totals
(no data) - Data not available for this year.

\hline
\end{tabular}

\section*{Food Insecurity - Food Insecure Population Ineligible for Assistance}

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).
\begin{tabular}{|c|c|c|c|c|}
\hline Report Area & Food Insecure Population & Food Insecure Population Ineligible for Assistance, Percent & Food Insecure Children & Food Insecure Children Ineligible for Assistance, Percent \\

\end{tabular}

\section*{Low Income and Low Food Access}

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than \(1 / 2\) mile from the nearest supermarket, supercenter, or large grocery store. Data are from the 2017 report, LowIncome and Low-Supermarket-Access Census Tracts, 2010-2015. This indicator is relevant because it highlights populations and geographies facing food insecurity.

\section*{SNAP Authorized Food Stores}

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 564 total SNAP-Authorized Retailers with a rate of 11.10.

\section*{Persons Receiving Medicare}

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 95,855 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 17,634 disabled persons in the report area received Medicare benefits in 2019.
\begin{tabular}{|l|r|r|r|}

\section*{Housing Age}

This indicator reports, for a given geographic area, the median year in which all housing units (vacant and occupied) were first constructed. The year the structure was built provides information on the age of housing units. These data help identify new housing construction and measures the disappearance of old housing from the inventory, when used in combination with data from previous years. This data also serves to aid in the development of formulas to determine substandard housing and provide assistance in forecasting future services, such as energy consumption and fire protection.

Housing Units

\section*{Housing Cost Burden (Owners)}

The 2014-2018 American Community Survey (ACS) shows in the report area that 28.53\% of homeowners with mortgages nationwide pay \(30 \%\) or more of their income on housing costs. \(25.44 \%\) of owners with mortgages and \(12.54 \%\) of owners without mortgages spend \(30 \%\) or more of their income on housing costs in the report area. \(30 \%\) or more of income spent on housing costs is considered a "housing-cost burden".
Total housing units are defined as "total rentals and owned where rent/owned and income known".
The number of occupied units is limited to those where gross rent as a percentage of household income is able to be calculated.

\section*{Housing Cost Burden (Renters)}

The 2014-2018 American Community Survey (ACS) shows in the report area that 46.53\% of occupied units paying rent nationwide pay \(30 \%\) or more of their income on housing costs. For the study area, \(48.72 \%\) of occupied units paying rent have a housing cost burden. When \(30 \%\) or more of income is spent on housing costs it is considered a "housing-cost burden".
Total housing units are defined as "total rentals and owned where rent/owned and income known".
The number of occupied units is limited to those where gross rent as a percentage of household income is able to be calculated.

\section*{Vacancy Rates}

The U.S. Postal Service provided information quarterly to the U.S. Department of Housing and Urban Development on addresses identified as vacant in the previous quarter. Residential and business vacancy rates for the report area in the second quarter of 2019 are reported.
For this reporting period, a total of 5,753.00 residential addresses were identified as vacant in the report area, a vacancy rate of \(2.1 \%\), and \(1,728.00\) business addresses were also reported as vacant, a rate of \(7.1 \%\).

Note: This indicator is compared to the state average.

\section*{Affordable Housing}

This indicator reports the number and percentage of housing units affordable at various income levels. Affordability is defined by assuming that housing costs should not exceed \(30 \%\) of total household income. Income levels are expressed as a percentage of each county's median household income.

Affordable Renter-Occupied Units, Total
Report Location

\section*{Evictions}

This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 81,553 homes in the report area, there were 3,322 eviction filings, for an eviction filing rate of \(4.07 \%\). 324 of the eviction filings ended in an eviction, for an eviction rate of \(0.40 \%\).

Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

\section*{Eviction Filings and Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016}

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over \(50 \%\) ) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Housing Cost: Owner Cost

Selected monthly owner costs are the sum of payments for mortgages, deeds of trust, contracts to purchase, or similar debts on the property (including payments for the first mortgage, second mortgages, home equity loans, and other junior mortgages); real estate taxes; fire, hazard, and flood insurance on the property; utilities (electricity, gas, and water and sewer); and fuels (oil, coal, kerosene, wood, etc.). It also includes, where appropriate, the monthly condominium fee for condominiums and mobile home costs. Selected monthly owner costs were tabulated for all owner-occupied units, and usually are shown separately for units "with a mortgage" and for units "not mortgaged."

\section*{Severe Housing Problems}

This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1.51 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than \(50 \%\), and 5) gross rent as a percentage of household income greater than \(50 \%\). Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard.

\section*{Substandard Housing}

This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than \(30 \%\), and 5) gross rent as a percentage of household income greater than \(30 \%\). Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard. Of the 190,670 total occupied housing units in the report area, 59,026 or \(30.96 \%\) have one or more substandard conditions.

Substandard Housing: Number of Substandard Conditions Present
Report Location

\section*{Substandard Housing: Households Lacking Complete Plumbing Facilities}

Complete plumbing facilities include: (a) hot and cold running water, (b) a flush toilet, and (c) a bathtub or shower. All three facilities must be located inside the house, apartment, or mobile home, but not necessarily in the same room. Housing units are classified as lacking complete plumbing facilities when any of the three facilities is not present.

\end{tabular}

Substandard Housing: Households Lacking Complete Plumbing Facilities

\section*{Substandard Housing: Households Lacking Complete Kitchen Facilities}

A unit has complete kitchen facilities when it has all three of the following facilities: (a) a sink with a faucet, (b) a stove or range, and (c) a refrigerator. All kitchen facilities must be located in the house, apartment, or mobile home, but they need not be in the same room. A housing unit having only a microwave or portable heating equipment such as a hot plate or camping stove should not be considered as having complete kitchen facilities. An icebox is not considered to be a refrigerator.
\begin{tabular}{|c|c|c|c|}

\end{tabular}

Substandard Housing: Households Lacking Complete Kitchen Facilities

\section*{Substandard Housing: Households Lacking Telephone Service}

A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls. Households that have cell-phones (no land-line) are counted as having telephone service available. Households whose service has been discontinued for nonpayment or other reasons are not counted as having telephone service available.

\section*{Measuring Distress}

\section*{A Tool for Economic Development}

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

\section*{County-Based Tool}

Switch to the tract-based tool
1. Select geography using the map and/or the dropdowns
\begin{tabular}{l} 
Show dropdowns for: \(O\) Counties \(\bigcirc\) Districts \& Metros \(\bigcirc\) States \\
State: GA \(\checkmark\) County: Warren \(\quad \checkmark\) \\
Add County \\
\hline
\end{tabular}

You are in NAVIGATE Mode (Move Map, Zoom) Click to switch to SELECT Mode

DATA PROVIDED BY
Georgia Family Connection Partnership

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of children enrolled in Georgia's Pre-K Program from low-income families. Denominator: All children enrolled in Georgia's Pre-K program. Rates calculation: 100 times the numerator divided by the denominator.

Data Source: Bright from the Start: Georgia Department of Early Care and Learning

Footnotes: Note: Children from low-income families are classified as Category One if they participate in one of the following: Food Stamps, Supplemental Security Income, Medicaid, Temporary Assistance for Needy Families (TANF), or the CAPS child care subsidy program. Children who participate in the free and reduced-price meal program through a public school also may be counted. Prior to 2013-2014, children receiving PeachCare for Kids (Georgia's Children's Health Insurance Program) were also included as low-income.

DATA PROVIDED BY
Georgia Family Connection Partnership

\section*{DEFINITIONS \& SOURCES}

Definitions: The number and percentage of children age under age 18 who are living in families with income below the federal poverty level.

Data Source: United States Census 2000, U.S. Department of Commerce, Census Bureau, SF3, Tables P87 and P159A,B,H. For 2001 and later: United States Census Bureau, Small Area Income \& Poverty Estimates (SAIPE). http://www.census.gov/hhes/www/saipe/index.html

Footnotes: Poverty is determined based on income received during the prior year. Poverty thresholds differ by family size and are updated annually for inflation using the Consumer Price Index.

\section*{Family Poverty Rate by Family Type}

The percentage of households in poverty by household type are shown for the report area. It is estimated that \(13.7 \%\) of all households were living in poverty within the report area, compared to the national average of \(9.5 \%\). Of the households in poverty, female headed households represented \(66.5 \%\) of all households in poverty, compared to \(23.7 \%\) and \(9.8 \%\) of households headed by males and married couples, respectively.

\section*{Evictions}

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 96,927 homes in the report area, there were 4,462 eviction filings, for an eviction filing rate of \(4.60 \%\). 635 of the eviction filings ended in an eviction, for an eviction rate of \(0.66 \%\).

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

\section*{Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016}

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

\section*{Your Guide to Veterans Resources}

Veterans face a series of unique challenges upon completion of their military service. Despite the promising implications of an improved job market and nationwide economic recovery, many former members of the armed forces continue to encounter difficulties as they transition to the civilian workforce and access other resources like health care and retirement information.

To help those who have served our country, GovLoop has put together this small guide to resources relating to workforce transitions, health care, and benefits for veterans. We hope you find this useful, and we thank you for your service.

\section*{\(\operatorname{port} 1\)}

\section*{Workforce Transition}

According to an iCIMS survey of former military personnel, 41 percent of respondents said that hiring managers didn't understand how military experiences could transfer to a private sector career.

Further, veterans themselves reported feeling like they were unable to effectively communicate or market how their skills might be applicable to civilian careers. One of the biggest issues is a lack of information and institutional support. A number of available advocacy, training, and support programs, in addition to government policies like the GI Bill, can better facilitate workplace transition and assist veterans in finding fulfilling work.

\section*{Tips}
1. Get in touch with your local VFW, American Legion or other veterans group. The folks there could have job leads to send your way, and you might make some great friends along the way.

\section*{2. Check out jobs-for-veter-} ans pages online and get in touch about resume building workshops (like this one).

\section*{3. Give yourself \(a\) break.}

Don't drive yourself into the ground with feelings of inadequacy, even if the job hunt is taking longer than expected. Stay methodical in working toward your goals.

\section*{4. Apply military disciplines} to your life, job search, and ultimately your job. These can include skills such as knowing how to lead and be led, and how to bring out the best in team members.

\section*{List of Resources:}

There are quite a few online resources for veterans looking to settle back into the workforce, but you have to know where to look. Also check out the National Veterans Foundation (NVF) or the National Resource Directory (NRD), both of which have helpful information on post-service compensation and assistance programs.

Vocational Rehabilitation and Emplovment (VR\&E) By design, this program assists veterans and servicemembers "with job training, employment accommodations, resume development and job seeking skills coaching."

\section*{Homeless Veteran Supported} Emplovment Program (HVSEP)
This service is organized to assist homeless or at-risk-of-being-homeless veterans in finding vocations to support themselves.

\section*{Compensated Work}

Therapy (CWT)
CWT helps homeless veterans work their way into competitive employment in three separate programs: Sheltered Workshop, Transitional Work and Supported Employment.

\section*{NVF's Jobs for}

\section*{Veterans Page}

A frequently updated database of positions across the country.

\section*{Veteran-owned businesses,}

\section*{U.S. Small Business}

\section*{Administration}

If you're looking to start up a business of your own, this is the site for you. The program offers support for veterans by way of funding, training and federal contracting opportunities.

\section*{Hire Heroes USA}

Is a national nonprofit that empowers U.S. military members, veterans and military spouses to succeed in the civilian workforce.

\section*{Part \\ 2} Health Care

\section*{Tips}
1. Take the time to educate yourself on what's available. If you've ever had to navigate the health care system, you know how timeconsuming it can be. We've included a list of resources below.
2. Advocate for veterans' health care rights.

If you have the time to do so, think about getting involved with a nonprofit like Fighting for Veterans Healthcare (FFVHC, see below).

\section*{3. Don't be afraid to ask} for help. If you need a crisis hotline immediately, call 1-800-273-8255 and press 1 to reach the National Suicide Prevention Lifeline.

\section*{List of Resources:}

Ready to jump in and explore your health care benefits? Below we've compiled five of the most useful websites for your health care needs. The list isn't all-inclusive, but it should get you going on the right foot. We recommend starting with Veterans Affairs Department resources and working out from there.

\section*{Explore.va.gov}

This is your first and maybe most important stop on the health care hunt. The Veterans Affairs Department site has a lot of information on how to apply to programs you're eligible for.

\section*{Veterans Health}

Administration
The Veterans Health
Administration website holds a great deal of information. Locate hospitals, check out facility quality ratings or read through veterans success stories from across the country.

\section*{Military.com Veteran Health Care Info}

Started in 1999, it was built to help connect veterans to each other and to benefits that had been shrouded in bureaucratic complexity.

\section*{Benefits.gov}

This is a helpful resource to figure out what benefits you're entitled to, based on your service time and discharge status.

\section*{Fighting for Veterans Healthcare (FFVHC)}

Check this site out if you're looking for something closer to activism. The nonprofit advocates veterans' rights by working to provide a platform for veteran voices and opposing the privatization of the Veterans Health Administration.

\section*{Port 3}

\section*{Retirement and Other Benefits}

Millions of veterans and their family members are eligible for billions of dollars each year in aid and assistance from the U.S. Department of Veterans Affairs. Because there are so many different programs, however, it can be difficult for veterans to keep track of exactly what benefits are available to them or understand the varying eligibility and application requirements.

\section*{Tips}
1. Familiarize yourself with the types of benefits available. Navigating all existing assistance programs can be overwhelming, so narrow your focus. Start with the specific programs you think you might need, and then look into the program criteria and required qualifications.

\section*{2. Keep an eye out for} changes to existing bills and newly introduced legislation (e.g. the 2017 Forever G.I. Bill, recently passed in the Senate).

\section*{3. Meet with a} representative or VA staff member in person (find your local office here). The information can be a lot to navigate alone, so speaking with an expert can clarify any questions you might have.

\section*{List of Resources:}

These resources provide a useful place to start for those navigating the numerous benefits and financial assistance programs available to veterans and their families.

\section*{U.S. Department of}

\section*{Veterans Affairs, Benefits}

\section*{Administration}

Check out the VA's Pension home page and Benefits A-Z
list for detailed information about available programs, qualifications and application requirements.

\section*{VetAngels.org}

This nonprofit organization aims to help provide eligible senior veterans and their families with information and support in applying for VA benefits to help with the cost of care.

\section*{Operation Homefront}

Operation Homefront is a national nonprofit aiming to help struggling military families.

\section*{The American Legion}

The American Legion, a nonprofit organization devoted to advocacy for the veteran community, offers a variety of services around veterans' benefits. Check out their site for a benefits calculator, lists of everyday veterans discounts and services, and more.

\section*{AgingCare.com}

This website has thorough information for elderly and aging veterans and their caregivers.

\section*{The Mission Continues}

The nonprofit organization operates under a goal to provide veterans with volunteer service opportunities in their communities. Their projects offer a chance to meet other veterans and their families who live in the area.

\title{
We thank you for your service and hope you found these veterans resources helpful.

\section*{Veterans Health Administration}

Access to Patient
Medical information

\section*{Women Veteran Support}

\section*{Rural Veteran Support}

Mental Health Support

\section*{Veteran (Vet) Center} information

\section*{VHA provides:}
- Primary care
- Mental health care (including Veteran-specific treatment for PTSD, TBI care, etc.)
- Preventative care
- A wide variety of specialty care
- Inpatient and outpatient pharmacy
- Geriatric care
- Long term care and support

Note: For basic information and an easy to understand eligibility quiz with digital resource links go to:
http://explore.va.gov/.
- My HealtheVet is VA's online personal health record system designed to help VA patients manage their healthcare records and notes from medical providers
- Blue Button allows you to share info between VA and non VA providers.
- The Women Veterans Health Program addresses health care needs of women Veterans to ensure that timely, equitable, high-quality, comprehensive health care services are available and provided
- The VA Office of Rural Health helps rural Veterans access medical care through VA facilities
- Authoritative mental health information and resources for Veterans and their families.
- Self-help toolbox
- Where to get help
- Comprehensive guide to VA Mental Health Services
- Veterans Crisis Line website has a live chat function

\section*{Vet Centers provide:}
- Individual and group counseling
- Discharge upgrade information
- Community, social service and medical referrals
- Employee assistance referrals
- VA Benefits assistance referrals

TSGLI/SGLI Questions
- Basic information about programs, eligibility, links to online application sites, testimonial videos, and an easy to understand eligibility quiz with digital resource links are available on http://explore.va.gov/
- A hardcopy and online handbook is available for benefits and qualifications information
- Further benefits and eligibility information is available at ebenefits.va.gov
- Information, forms, and phone numbers are available online for Veterans and their dependents
- Links to online application sties and other online resources where Veterans can get answers are on http://explore.va.gov/.
- VA guarantees loans made by private lenders. The VA provides Specially Adapted Housing (SAH) grants for severely disabled Veterans
Note: VHA provides HISA grants to eligible Veterans for use in modifying a home. These are smaller grants.

The VR\&E program provides:
- Assistance in finding employment with programs such as vocational assessments, counseling, education tuition/stipends related to employment and employment planning
Note: Links to VR\&E as well as other employment resources can be found on http://explore.va.gov/
- The post-9/11 GI Bill pays higher education tuition, housing, and stipends for Veterans, service members or their dependents
- Eligibility - served at least 90 days on active duty after 9/10/2001
- An important starting point - GI Bill Comparison Tool
- Pension benefits descriptions, eligibility, and application forms are available online.
- Basic info, forms and links to resources for Veterans Pensions, Survivors Pension and Special Monthly Pension for Veterans on http://explore.va.gov/.
- Program for Veterans and other beneficiaries who, due to injury, disease, or due to age, are unable to manage their financial affairs
- Apply for benefit or to become a fiduciary for a Veteran

\section*{Veterans are eligible for:}
- Service-Disabled Veterans Insurance (S-DVI), Service members' Group Life Insurance (SGLI), Veterans' Group Life Insurance (VGLI), and/or Veterans' Mortgage Life Insurance (VMLI), SGLI Traumatic Injury Protection (TSGLI), Servicemembers' Group Life Insurance Disability Extension (SGIL-DE), Family Servicemembers' Group Life Insurance (FSGLI),
- Disability compensation is a tax-free benefit paid to eligible Veterans
- Eligibility is determined by injuries/diseases from/aggravated by service

Dependents may be awarded tax-free benefits for:
- Death during military service or post-service related to a service-connected disability
- Death after extended period of 100 percent disability Note: Links and information to VA benefits and services available to dependents, survivors and spouses are available on http://explore.va.gov/. DIC is just one of many benefits available to this group

\section*{Poverty Rate < 125\% FPL (ACS)}

In the report area \(31.33 \%\) or 21,193 individuals are living in households with income below \(125 \%\) of the Federal Poverty Level (FPL). This indicator is relevant because poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status.

\section*{Population Age 65+}

Of the estimated 76,120 total population in the report area, an estimated 8,479 persons are adults aged 65 and older, representing \(11.14 \%\) of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.
\begin{tabular}{l|r|r|r|r|}

\section*{Life Expectancy by Census Tract}

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 75.97 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

\(\square\) Bulloch County, GA

\section*{Life Expectancy (2010-2015) - Geographic Disparity}

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.
\begin{tabular}{|l|l|l|l|l|l|}
\hline Report Area & Minimum & 1st Quartile & Median & 3rd Quartile & Maximum \\
\hline Bulloch County, GA & 70.10 & 74.20 & 76.80 & 77.00 & 78.50 \\

\hline Bulloch County, GA & 8.4 & 7.0 & 4.7 \\
\hline
\end{tabular}

\section*{Period Life Table (2010-2015)}

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.
\begin{tabular}{|c|c|c|c|c|c|c|c|c|c|c|}
\hline Report Area & Under Age 1 & Ages 1-4 & Ages 5-14 & Ages 15-24 & Ages 25-34 & Ages 35-44 & Ages 45-54 & Ages 55-64 & Ages 65-74 & Ages 75-84 \\

\section*{Education}

\section*{Educational Attainment}

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, \(14.1 \%\) have at least a college bachelor's degree, while \(27.2 \%\) stopped their formal educational attainment after high school.

\section*{Head Start}

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 2 Head Start programs with a rate of 4.77 per 10,000 children under 5 years old.

\section*{Evictions}

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 13,466 homes in the report area, there were 2,220 eviction filings, for an eviction filing rate of \(16.49 \%\). 148 of the eviction filings ended in an eviction, for an eviction rate of \(1.1 \%\).

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.
\begin{tabular}{|l|r|r|r|r|r|}
\hline \multicolumn{1}{|c|}{ Report Area } & Renter Occupied Households & Eviction Filings & Evictions & Eviction Filing Rate & Eviction Rate \\

\section*{Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016}

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

\hline
\end{tabular}

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

\section*{Jobs and Earnings by Sector}

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than \(\$ 50,000\), but the estimates for this item are included in the totals (no data) - Data not available for this year.

\section*{Nutrition}

\section*{Free and Reduced Lunch Program}

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under 130\% (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 10,821 total public school students in the report area, 6,376 were eligible for the free or reduced price lunch program in the latest report year. This represents \(58.9 \%\) of public school students, which is lower than the state average of \(60.3 \%\).
\begin{tabular}{|l|r|r|r|}

\section*{Food Insecurity}

This indicator reports the estimated percentage of the population that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.
\begin{tabular}{|l|r|r|r|}
\hline \multicolumn{1}{|c|}{ Report Area } & Total Population & Food Insecure Population, Total & Food Insecurity Rate \\

\hline
\end{tabular}

\section*{Food Insecurity - Food Insecure Population Ineligible for Assistance}

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

\section*{Low Income and Low Food Access}

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than \(1 / 2\) mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
\(16.80 \%\) of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 5,924 .

\section*{SNAP Authorized Food Stores}

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 88 total SNAP-Authorized Retailers with a rate of 12.53 .
\begin{tabular}{|c|c|c|c|c|}

\section*{Persons Receiving Medicare}

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 10,642 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 1,903 disabled persons in the report area received Medicare benefits in 2019.
\begin{tabular}{|l|r|r|r|}
\hline \multicolumn{1}{|c|}{ Report Area } & Persons Over 65 Receiving Medicare & Disabled Persons Receiving Medicare & Total Persons Receiving Medicare \\

Note: No county data available. See data source and methodology for more details.

\section*{Deaths of Despair}

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.
\begin{tabular}{|l|r|r|r|r|}

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

Definition: All graduates except those listed as technical certificates \(\left({ }^{\circ}\right)\) are diploma and degree graduates. Diploma and degree programs are one to two years in length. Technical certificates are less than a year in length. Duplication may occur due to graduates with multiple awards.

\hline & Percent & \(7.3 \%\) & \(6.1 \%\) & \(5.7 \%\) & \(5.0 \%\) & \(4.2 \%\) \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of unemployed persons. Denominator: Number of persons in the labor force. Rate calculation: 100 times the numerator divided by the denominator.

Data Source: Georgia Department of Labor, Labor Information Systems Office, Yearly Data.

\section*{Households With Children Receiving Food Stamps (Number)}
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline \multicolumn{1}{|c|}{ Location } & Data Type & \multicolumn{1}{|c|}{2014} & 2015 & 2016 & 2017 & 2018 \\
\hline Georgia & Number & 410,951 & 395,600 & 374,170 & 344,513 & 319,723 \\
\hline Bulloch & Number & 2,686 & 2,551 & 2,744 & 2,633 & 2,558 \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Number of households with children receiving Food Stamps.

Data Source: Division of Family and Children Services, Georgia Department of Human Resources.

\section*{DEFINITIONS \& SOURCES}

Definitions: Number of children receiving WIC, birth through age 4.

Data Source: Georgia Department of Public Health

\section*{Children Living In Poverty (Number \& Percent)}
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline \multirow{2}{|c|}{ Location } & Data Type & \multicolumn{1}{|c|}{2014} & 2015 & 2016 & 2017 & 2018 \\
\hline \multirow{2}{*}{ Georgia } & Number & 646,960 & 610,161 & 572,102 & 532,013 & 516,311 \\
\cline { 2 - 8 } & Percent & \(26.3 \%\) & \(24.7 \%\) & \(23.1 \%\) & \(21.5 \%\) & \(21.0 \%\) \\
\hline \multirow{2}{*}{ Bulloch } & Number & 5,034 & 4,579 & 3,990 & 3,974 & 3,713 \\
\hline & Percent & \(34.8 \%\) & \(31.3 \%\) & \(27.3 \%\) & \(26.3 \%\) & \(24.4 \%\) \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: The number and percentage of children age under age 18 who are living in families with income below the federal poverty level.

Data Source: United States Census 2000, U.S. Department of Commerce, Census Bureau, SF3, Tables P87 and P159A,B,H. For 2001 and later: United States Census Bureau, Small Area Income \& Poverty Estimates (SAIPE). http://www.census.gov/hhes/www/saipe/index.html

Footnotes: Poverty is determined based on income received during the prior year. Poverty thresholds differ by family size and are updated annually for inflation using the Consumer Price Index.

\hline & & & \multicolumn{2}{|r|}{Enter your email} & & \\
\hline
\end{tabular}

Definitions: Numeratar: Number of children not attending preschoal, ages 3 to 4 . Denominator: Number of children ages 3 to 4. Rate calculation: 100 times the numerator divided by the denominator. Large differences in county values between years may be due in part to the margin of error.

Data Source: U.S. Census Bureau, American Community Survey, Five Year Estimates, Table B14003.

\section*{Children Enrolled In The Georgia Pre-K Program (Number \& Percent)}
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline \multicolumn{1}{|c|}{ Location } & Data Type & \multicolumn{1}{|c|}{2015} & \multicolumn{1}{|c|}{2016} & \multicolumn{1}{|c|}{2017} & \multicolumn{1}{|c|}{2018} & \multicolumn{1}{|c|}{2019} \\
\hline Georgia & Number & 80,430 & 80,825 & 80,874 & 80,536 & 80,493 \\
\cline { 2 - 7 } & Percent & \(58.8 \%\) & \(57.9 \%\) & \(59.4 \%\) & \(59.7 \%\) & \(60.1 \%\) \\
\hline \multirow{2}{*}{ Bulloch } & Number & 583 & 627 & 657 & 673 & 682 \\
\cline { 2 - 7 } & Percent & \(72.0 \%\) & \(80.9 \%\) & \(84.8 \%\) & \(86.8 \%\) & \(80.1 \%\) \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of children enrolled in Georgia Pre-K Program. Denominator: Number of 4 year olds. Rate calculation: 100 times the numerator divided by the denominator.

Data Source: Bright from the Start: Georgia Department of Early Care and Learning

\section*{Children Enrolled In The Georgia Pre-K Program From Low-Income Families (Number \& Percent)}
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline Location & Data Type & 2015 & 2016 & 2017 & 2018 & 2019 \\
\hline
\end{tabular}

Enter your email

\section*{Why This Indicator Matters}

Do not compare data from 2015 and 2014 to prior years as the methodology has changed.

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of children enrolled in Georgia Pre-K Program from low-income families. Denominator: All children enrolled in Georgia Pre-K program. Rates calculation: 100 times the numerator divided by the denominator.

Data Source: Bright from the Start: Georgia Department of Early Care and Learning

Footnotes: Note: Children from low-income families are classified as Category One if they participate in one of the following: Food Stamps, SSI, Medicaid, Temporary Assistance for Needy Families (TANF), CAPS program, or PeachCare for Kids. Children who participate in the free and reduced-price meal program through the center/school also may be counted. For 2013-2014 and afterwards, children receiving Medicaid or PeachCare are not included as low-income.

\section*{Centers And Family Care Homes Rated In Quality Rated (Number \& Percent)}
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline \multirow{2}{|c|}{ Location } & Data Type & \multicolumn{2}{|c|}{2015} & 2016 & 2017 & 2018 \\
\hline \multirow{2}{*}{ Georgia } & Number & 625 & 1,096 & 1,342 & 2019 \\
\cline { 2 - 8 } & Percent & \(12 \%\) & \(21 \%\) & \(27 \%\) & 3,561 & 1,871 \\
\hline Bulloch & Number & 7 & 15 & 19 & \(40 \%\) \\
\hline & Percent & \(17 \%\) & \(39 \%\) & \(49 \%\) & \(50 \%\) & 22 \\
\hline
\end{tabular}
\(\qquad\)

Data Source: Bright from the Start: Georgia Department of Early Care and Learning.

Students Who Graduate From High School On Time (Number \& Percent)
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline \multirow{2}{|c|}{ Location } & \multicolumn{1}{|c|}{ Data Type } & \multicolumn{1}{|c|}{2015} & 2016 & 2017 & 2018 & 2019 \\
\hline \multirow{3}{*}{ Georgia } & Number & 98,465 & 101,087 & 104,059 & 108,491 & 110,793 \\
\cline { 2 - 8 } & Percent & \(78.8 \%\) & \(79.4 \%\) & \(80.6 \%\) & \(81.6 \%\) & \(82.0 \%\) \\
\hline Bulloch & Number & 577 & 613 & 594 & 606 & 620 \\
\hline & Percent & \(84.5 \%\) & \(84.9 \%\) & \(82.5 \%\) & \(85.1 \%\) & \(79.9 \%\) \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Four-year adjusted cohort graduation rate (percentage of students who graduate within four years, including adjustments for student transfers).

Data Source: Governor's Office of Student Achievement Report Card www.gosa.georgia.gov and Georgia Department of Education.

Footnotes: The year listed is the second half of the school year; for example, 2016 refers to the 2015-2016 school year. Data for all school systems are now listed separately. For counties with one school system, the data have not changed. For counties with more than one school system, search for each "School District" in the county. If the denominator is less than 10 students, data are not presented in tables, graphs or downloaded data sets. For data by specific schools, go to www.gosa.georgia.gov.

\section*{Teens Who Are High-School Dropouts, Ages 16-19 (Number \& Percent)}

\begin{tabular}{|l|l|l||l|l|l|} 
Number & 278 & 232 & 207 & 125 & 147 \\
\hline Percent & \(3.6 \%\) & \(2.9 \%\) & \(2.4 \%\) & \(1.5 \%\) & \(1.8 \%\)
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of youth ages 16 to 19 who are not enrolled in school and not high school graduates. Denominator: Number of youth ages 16 to 19. Rate calculation: 100 times the numerator divided by the denominator. Large differences in county values between years may be due in part to the margin of error.

Data Source: U.S. Census Bureau, American Community Survey, Five Year Estimates, Table B14005.

\section*{Teens Not In School And Not Working, Ages 16-19 (Number \& Percent)}
\begin{tabular}{|c|c|c|c|c|c|c|}
\hline Location & Data Type & \[
\begin{gathered}
2010- \\
2014
\end{gathered}
\] & \[
\begin{gathered}

2015
\end{gathered}
\] & \[
\begin{gathered}
2012- \\
2016
\end{gathered}
\] & \[
\begin{gathered}
2013- \\
2017
\end{gathered}
\] & \[
\begin{gathered}
2014 \\
2018
\end{gathered}
\] \\
\hline \multirow[t]{2}{*}{Georgia} & Number & 59,380 & 55,489 & 51,852 & 49,042 & 47,780 \\
\hline & Percent & 10.4\% & 9.8\% & 9.1\% & 8.6\% & 8.3\% \\
\hline \multirow[t]{2}{*}{Bulloch} & Number & 473 & 467 & 395 & 275 & 245 \\
\hline & Percent & 6.2\% & 5.8\% & 4.6\% & 3.3\% & 2.9\% \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of youth who are not in the Armed Forces, are not enrolled in school, and not employed; ages 16 to 19. Denominator: Number of youth ages 16 to 19. Rate calculation: 100 times the numerator divided by the denominator. Large differences in country values between years may be due in part to the margin of error.

\section*{Third Grade Students Achieving Proficient Learner Or Above On Milestones English Language Arts Assessment (Number \& Percent)}
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline \multicolumn{1}{|c|}{ Location } & Data Type & \multicolumn{1}{|c|}{2015} & \multicolumn{1}{|c|}{2016} & \multicolumn{1}{|c|}{2017} & \multicolumn{1}{|c|}{2018} & \multicolumn{1}{|c|}{2019} \\
\hline \multirow{2}{*}{ Georgia } & Number & 48,539 & 47,653 & 49,513 & 50,134 & 54,111 \\
\cline { 2 - 7 } & Percent & \(36.9 \%\) & \(35.1 \%\) & \(36.4 \%\) & \(37.4 \%\) & \(42.0 \%\) \\
\hline Bulloch & Number & 313 & 297 & 259 & 268 & 313 \\
\cline { 2 - 7 } & Percent & \(38.8 \%\) & \(35.4 \%\) & \(32.3 \%\) & \(33.2 \%\) & \(39.3 \%\) \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of third grade students achieving Proficient Learner or above on the Milestones English Language Arts assessment. Denominator: Number of students taking the test. Rate calculation: 100 times the numerator divided by the denominator.

Data Source: Governor's Office of Student Achievement Report Card

Footnotes: The year listed is the second half of the school year; for example, 2016 refers to the 2015-2016 school year. Data for all school systems are listed separately. For counties with more than one school system, search for each "School District" in the county. If the denominator is less than 10 students, data are not presented in tables, graphs or downloaded data sets. For data by specific schools, go to http://gosa.georgia.gov/.

Fifth Grade Students Achieving Proficient Learner Or Above On Milestones English Language Arts Assessment (Number \& Percent)
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline Location & \multicolumn{1}{|c|}{ Data Type } & \multicolumn{1}{|c|}{2015} & \multicolumn{1}{|c|}{2016} & \multicolumn{1}{|c|}{2017} & \multicolumn{1}{|c|}{2018} & \multicolumn{1}{|c|}{2019} \\
\hline Georgia & Number & 50,183 & 52,949 & 51,659 & 56,853 & 61,711 \\
\hline
\end{tabular}

Enter your email

Definitions: Numerator: Number of fifth grade students achieving Proficient Learner or above on the Milestones English Language Arts assessment. Denominator: Number of students taking the test. Rate calculation: 100 times the numerator divided by the denominator.

Data Source: Governor's Office of Student Achievement Report Card

Footnotes: The year listed is the second half of the school year; for example, 2016 refers to the 2015-2016 school year. Data for all school systems are listed separately. For counties with more than one school system, search for each "School District" in the county. If the denominator is less than 10 students, data are not presented in tables, graphs or downloaded data sets. For data by specific schools, go to http://gosa.georgia.gov/.

\section*{Eighth Grade Students Achieving Proficient Learner Or Above On Milestones English Language Arts Assessment (Number \& Percent)}
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline \multicolumn{1}{|c|}{ Location } & \multicolumn{1}{|c|}{ Data Type } & \multicolumn{2}{|c|}{2015} & 2016 & 2017 & 2018 \\
\hline \multirow{2}{*}{ Georgia } & Number & 50,711 & 56,594 & 54,429 & 54,006 & 2019 \\
\cline { 2 - 8 } & Percent & \(39.1 \%\) & \(44.0 \%\) & \(42.7 \%\) & \(43.2 \%\) & \(47.3 \%\) \\
\hline Bulloch & Number & 276 & 316 & 311 & 365 & 373 \\
\cline { 2 - 8 } & Percent & \(38.7 \%\) & \(45.8 \%\) & \(42.5 \%\) & \(49.1 \%\) & \(50.5 \%\) \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of eighth grade students achieving Proficient Learner or above on the Milestones English Language Arts assessment. Denominator: Number of students taking the test. Rate calculation: 100 times the numerator divided by the denominator.

\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of low birth-weight births to Georgia residents. Denominator: Total number of live births. Rates calculation: 100 times the numerator divided by the denominator.

Data Source: Birth Certificate Records, Georgia Department of Human Resources, Division of Public Health, Office of Health Information and Policy. Data collection is the responsibility of the Vital Records Branch.

\section*{Infant Mortality (Per 1,000) (Number \& Rate Per 1,000)}

Enter your email
\begin{tabular}{|l|l|l||l|l|l|} 
Number & 8 & 9 & 5 & 5 & 7 \\
\hline Rate per 1,000 & 8.8 & 10.1 & 5.6 & 5.5 & 7.8 \\
\hline
\end{tabular}

\section*{DEFINITIONS \& SOURCES}

Definitions: Numerator: Number of deaths of infants residing in Georgia (regardless of where the death occurred) and less than 1 year of age. Denominator: Total number of live births. Rates calculation: 1,000 times the numerator divided by the denominator.

Data Source: Death Certificate Records, Georgia Department of Human Resources, Division of Public Health, Office of Health Information and Policy. Data collection is the responsibility of the Vital Records Branch.

Footnotes: LNE (low number event) indicates that there were 4 or fewer events on which rates would be based.

Teen Pregnancies, Ages 15-17 (Per 1,000) (Number \& Rate Per 1,000)
\begin{tabular}{|l|l|l|l|l|l|l|}
\hline \multicolumn{1}{|c|}{ Location } & \multicolumn{1}{|c|}{ Data Type } & \multicolumn{1}{|c|}{2014} & 2015 & 2016 & 2017 & 2018 \\

\section*{Measuring Distress}

\section*{A Tool for Economic Development}

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

\section*{County-Based Tool}

Switch to the tract-based tool
1. Select geography using the map and/or the dropdowns

Show dropdowns for: \(\bigcirc\) Counties \(\bigcirc\) Districts \& Metros \(\bigcirc\) States
State:

County: Warren \(\checkmark\) Add County

You may select up to 255 counties

\section*{Remove Selected}

\section*{Population Age 65+}

Of the estimated 22,520 total population in the report area, an estimated 3,384 persons are adults aged 65 and older, representing \(15.03 \%\) of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.
\begin{tabular}{l|r|r|r|}

\end{tabular}

\section*{Life Expectancy by Census Tract}

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 74.17 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.
\begin{tabular}{|c|c|c|c|}

\section*{Life Expectancy (2010-2015) - Geographic Disparity}

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.
\begin{tabular}{|l|l|l|l|l|l|}
\hline \multicolumn{1}{|c|}{ Report Area } & Minimum & 1st Quartile & Median & 3rd Quartile & Maximum \\

\hline
\end{tabular}

\section*{Period Life Table (2010-2015)}

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.
\begin{tabular}{|l|r|r|r|r|r|r|r|r|r|r|}
\hline \multicolumn{1}{|c|}{ Report Area } & Under Age 1 & Ages 1-4 & Ages 5-14 & Ages 15-24 & Ages 25-34 & Ages 35-44 & Ages 45-54 & Ages 55-64 & Ages 65-74 & Ages 75-84 \\

\section*{Education}

\section*{Educational Attainment}

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, \(8.5 \%\) have at least a college bachelor's degree, while \(38.3 \%\) stopped their formal educational attainment after high school.

\section*{Head Start}

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 2 Head Start programs with a rate of 11.27 per 10,000 children under 5 years old.

\section*{Evictions}

This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave.

Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.
\begin{tabular}{|l|r|r|r|r|r|}

\section*{Household Income}

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.
\begin{tabular}{|l|r|r|}
\hline \multicolumn{1}{|c|}{ Report Area } & \multicolumn{2}{|c|}{ Estimated Population } \\
& \multicolumn{2}{c|}{ Median Household Income } \\

\hline Georgia & \(10,403,847\) & \(\$ 61,950\) \\
\hline United States & \(324,697,795\) & \(\$ 65,712\) \\
\hline
\end{tabular}

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

\section*{Jobs and Earnings by Sector}

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than \(\$ 50,000\), but the estimates for this item are included in the totals (no data) - Data not available for this year.

\section*{Nutrition}

\section*{Free and Reduced Lunch Program}

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under 130\% (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 4,158 total public school students in the report area, 4,158 were eligible for the free or reduced price lunch program in the latest report year. This represents \(100.0 \%\) of public school students, which is higher than the state average of \(60.3 \%\).

\hline
\end{tabular}

\section*{Food Insecurity - Food Insecure Population Ineligible for Assistance}

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

\section*{Low Income and Low Food Access}

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than \(1 / 2\) mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
\(16.27 \%\) of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 1,774 .

\section*{SNAP Authorized Food Stores}

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 29 total SNAP-Authorized Retailers with a rate of 12.44.

\section*{Persons Receiving Medicare}

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 4,657 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 947 disabled persons in the report area received Medicare benefits in 2019.

\section*{Deaths of Despair}

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.
\begin{tabular}{|l|r|r|r|r|}

\footnotetext{
Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

\section*{Measuring Distress}

\section*{A Tool for Economic Development}

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

\section*{County-Based Tool}

Switch to the tract-based tool
1. Select geography using the map and/or the dropdowns
Show dropdowns for: \(\bigcirc\) Counties \(\bigcirc\) Districts \& Metros \(\bigcirc\) States
State: GA \(\checkmark\) County: Burke \(\checkmark\) Add County

You may select up to 255 counties

Remove Selected
Clear All
2. Year \& Month 2021 v January v

\section*{You are in NAVIGATE Mode (Move Map, Zoom) Click to switch to SELECT Mode}

\section*{Poverty Rate Change (SAIPE) Age 0-4}

The poverty rate change for all children (age 0-4) in the report area from 2000 to 2019 is shown below. The U.S. Census Bureau's Small Area Income and Poverty Estimates only calculates poverty for this age on the state and national levels. The national poverty rate change for this age group increased by \(-0.5 \%\) over the described time period.

\section*{Population Age 65+}

Of the estimated 150,705 total population in the report area, an estimated 19,884 persons are adults aged 65 and older, representing \(13.19 \%\) of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.
\begin{tabular}{|l|r|r|r|r|}

\section*{Life Expectancy by Census Tract}

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 78.62 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.
\begin{tabular}{|l|r|r|}
\hline \multicolumn{1}{|c|}{ Report Area } & Total Population (2010-2015) & Life Expectancy at Birth (2010-15) \\
\hline Columbia County, GA & 136,204 & 78.62 \\
\hline Georgia & \(10,006,693\) & 77.14 \\
\hline United States & \(320,098,094\) & 78.69 \\
\hline
\end{tabular}

Note: This indicator is compared to the state average.

\section*{Life Expectancy (2010-2015) - Geographic Disparity}

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.
\begin{tabular}{|l|l|l|l|l|l|}

\section*{Education}

\section*{Educational Attainment}

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, \(22.5 \%\) have at least a college bachelor's degree, while \(23.8 \%\) stopped their formal educational attainment after high school.

\section*{Head Start}

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of 1.2 per 10,000 children under 5 years old.

\section*{Vacancy Rates}

The U.S. Postal Service provided information quarterly to the U.S. Department of Housing and Urban Development on addresses identified as vacant in the previous quarter. Residential and business vacancy rates for the report area in the fourth quarter of 2020 are reported.
For this reporting period, a total of 525 residential addresses were identified as vacant in the report area, a vacancy rate of \(0.8 \%\), and 182 business addresses were also reported as vacant, a rate of \(3.6 \%\).

\section*{Evictions}

This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave.

Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.
\begin{tabular}{|c|c|c|c|c|c|c|}

\section*{Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016}

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

\section*{Jobs and Earnings by Sector}

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than \(\$ 50,000\), but the estimates for this item are included in the totals (no data) - Data not available for this year.

\section*{Nutrition}

\section*{Free and Reduced Lunch Program}

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under \(130 \%\) (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 28,223 total public school students in the report area, 8,785 were eligible for the free or reduced price lunch program in the latest report year. This represents \(31.1 \%\) of public school students, which is lower than the state average of \(60.3 \%\).
\begin{tabular}{|c|c|c|c|c|}

\hline
\end{tabular}

\section*{Food Insecurity - Food Insecure Population Ineligible for Assistance}

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

\section*{Low Income and Low Food Access}

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than \(1 / 2\) mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
\(33.83 \%\) of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 7,338 .

\section*{SNAP Authorized Food Stores}

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 86 total SNAP-Authorized Retailers with a rate of 6.93.
\begin{tabular}{|c|c|c|c|c|}

\section*{Persons Receiving Medicare}

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 23,425 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 2,993 disabled persons in the report area received Medicare benefits in 2019.
\begin{tabular}{|l|r|r|r|}
\hline \multicolumn{1}{|c|}{ Report Area } & Persons Over 65 Receiving Medicare & Disabled Persons Receiving Medicare & Total Persons Receiving Medicare \\
\hline Columbia County, GA & 20,432 & 2,993 & 23,425 \\

\section*{Uninsured Population}

The uninsured population of 2019 is calculated by estimating the number of persons eligible for insurance (generally those under 65) minus the estimated number of insured persons.
\begin{tabular}{|l|r|r|r|r|}
\hline \multicolumn{1}{|c|}{\begin{tabular}{c} 
Report Area \\
Insurance Population \\
(2019 Estimate)
\end{tabular}} & Number Insured & Number Uninsured & Percent Uninsured \\

\section*{Asthma Prevalence}

Within the report area, there were 10,162 adults age 18 and older who self-report that they have ever been told by a doctor, nurse, or other health professional that they had asthma. This represents \(9.1 \%\) of the total survey population age 18 and older.
\begin{tabular}{|c|c|c|c|c|}

\section*{Deaths of Despair}

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.
\begin{tabular}{|l|r|r|r|r|}

\section*{Built Environment}

\section*{Broadband Access}

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.
\begin{tabular}{|l|r|r|}

\end{tabular}

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

Definition: All graduates except those listed as technical certificates \(\left({ }^{\circ}\right)\) are diploma and degree graduates. Diploma and degree programs are one to two years in length. Technical certificates are less than a year in length. Duplication may occur due to graduates with multiple awards.

\section*{Measuring Distress}

\section*{A Tool for Economic Development}

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

\section*{County-Based Tool}

Switch to the tract-based tool
1. Select geography using the map and/or the dropdowns

Show dropdowns for: \(\bigcirc\) Counties \(\bigcirc\) Districts \& Metros \(\bigcirc\) States
State: GA \(\checkmark\) County: Wilkes \(\checkmark\) Add County

You may select up to 255 counties

## Child Poverty Rate (ACS) Ages 0-4

Population and poverty estimates for children age 0-4 are shown for the report area. According to the American Community Survey 5 year data, an average of $29.5 \%$ percent of children lived in a state of poverty during the survey calendar year. The poverty rate for children living in the report area is less than the national average of $20.3 \%$.

## Population Age 65+

Of the estimated 22,533 total population in the report area, an estimated 3,545 persons are adults aged 65 and older, representing $15.73 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 73.94 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | 2015 |
| :---: | :---: | :---: | :---: |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Emanuel County, GA | 68.10 | 72.90 | 74.10 | 74.50 | 74.60 |

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :---: | ---: | ---: | ---: |
| Emanuel County, GA | 6.5 | 6.4 | 2.5 |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age 1 | Ages 1-4 | Ages 5-14 | Ages 15-24 | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $6.4 \%$ have at least a college bachelor's degree, while $40.8 \%$ stopped their formal educational attainment after high school.

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 2 Head Start programs with a rate of 12.08 per 10,000 children under 5 years old.

| Report Area | Children Under Age $5$ | Total Head Start Programs | Head Start Programs, Rate (Per 10,000 Children) |

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 3,296 homes in the report area, there were 280 eviction filings, for an eviction filing rate of $8.5 \%$. 59 of the eviction filings ended in an eviction, for an eviction rate of $1.79 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

| Report Area | Renter Occupied Households | Eviction Filings | Evictions | Eviction Filing Rate | Eviction Rate |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Emanuel County, GA | 3,296 | 280 | 59 | $8.5 \%$ | $1.79 \%$ |
| Georgia | $1,208,418$ | 203,212 | 56,963 | $16.82 \%$ | $4.71 \%$ |
| United States | $38,372,860$ | $2,350,042$ | 898,479 | $6.12 \%$ | $2.34 \%$ |

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

| Report Area | White | Black | Asian |  |  |

## Eviction Filings by Neighborhood Predominant Race/Ethnicity, 2016

Totals by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population | Median Household Income |
| :---: | :---: | :---: |
| Emanuel County, GA | 22,533 | \$38,529 |
| Georgia | 10,403,847 | \$61,950 |
| United States | 324,697,795 | \$65,712 |

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under $130 \%$ (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 4,284 total public school students in the report area, 3,719 were eligible for the free or reduced price lunch program in the latest report year. This represents $86.8 \%$ of public school students, which is higher than the state average of $60.3 \%$.

| Report Area | Total <br> Students | Students Eligible for Free or Reduced Price Lunch | Students Eligible for Free or Reduced Price Lunch, Percent | Percentage of Students Eligible for Free or Reduced Price Schoo Lunch |

## Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

| Report Area | Population Under Age 18 | Food Insecure Children, Total | Child Food Insecurity Rate |
| :--- | ---: | ---: | ---: | ---: |
| Emanuel County, GA | 5,688 | 1,570 | $27.60 \%$ |
| Georgia | 201,476 | 29,664 | $14.70 \%$ |
| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure <br> Population | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |

| Emanuel <br> County, GA | 4,420 |  | $18.00 \%$ | 1,570 |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
$30.13 \%$ of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 3,323 .

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 32 total SNAP-Authorized Retailers with a rate of 14.16.

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 4,940 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 988 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |
| :--- | ---: | ---: | ---: |

Note: No county data available. See data source and methodology for more details.

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |
| :--- | ---: | ---: | ---: | ---: |

## Built Environment

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2019) | Access to DL Speeds > 25MBPS (2020) | Percentage of Population with Access to Broadband Internet (DL Speeds > 25MBPS) |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: Emanuel $\checkmark$ Add County

You may select up to 255 counties

## You are in NAVIGATE Mode (Move Map, Zoom)

## Population Age 65+

Of the estimated 2,996 total population in the report area, an estimated 494 persons are adults aged 65 and older, representing $16.49 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 65+ | Population Age 65+, Percent |

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 77.00 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | 2015 |
| :---: | :---: | :---: | :---: |
| Glascock County, GA | 3,087 | 77.00 |  |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| ---: | ---: | ---: | ---: | ---: | ---: |
| Glascock County, GA | 77.00 | 77.00 | 77.00 | 77.00 | 77.00 |

| Glascock County, GA |  | 0.0 | No data |

0

Period Life Table (2010-2015)
This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age 1 | Ages 1-4 | Ages 5-14 | Ages 15-24 | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $10.5 \%$ have at least a college bachelor's degree, while $40.9 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School Diploma | High School Only | Some College | Associates Degree | Bachelors Degree | Graduate or Professional Degree |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of 50.25 per 10,000 children under 5 years old.

| Report Area | Children Under Age 5 | Total Head Start Programs | Head Start Programs, Rate (Per 10,000 Children) |
| :---: | :---: | :---: | :---: |

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 361 homes in the report area, there were 22 eviction filings, for an eviction filing rate of $6.09 \% .4$ of the eviction filings ended in an eviction, for an eviction rate of $1.11 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

| Report Area | Renter Occupied Households | Eviction Filings | Evictions | Eviction Filing Rate | Eviction Rate |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Glascock County, GA | 361 | 22 | 4 | $6.09 \%$ | $1.11 \%$ |

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

| Report Area | White | Black | Asian | Hispanic or Latino |
| :---: | :---: | :---: | :---: | :---: |
| Glascock County, GA | 1.11\% | No data | No data | No data |

| United States | 1.50\% | 0.80\% | 0.01\% | 0.39\% |

## Eviction Filings by Neighborhood Predominant Race/Ethnicity, 2016

Totals by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population | Median Household Income |
| :---: | :---: | :---: |
| Glascock County, GA | 2,996 | \$49,350 |
| Georgia | 10,403,847 | \$61,950 |
| United States | 324,697,795 | \$65,712 |

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under $130 \%$ (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 572 total public school students in the report area, 356 were eligible for the free or reduced price lunch program in the latest report year. This represents $62.2 \%$ of public school students, which is higher than the state average of $60.3 \%$.

| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure <br> Population | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |

| Glascock <br> County, GA | 330 |  | $20.00 \%$ | 120 |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
82.21\% of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 855 .

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 3 total SNAP-Authorized Retailers with a rate of 9.73.

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 593 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 90 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |
| :--- | ---: | ---: | ---: | ---: |
| Glascock County, GA | 503 | 90 | 593 |
| Georgia | $2,897,012$ | 557,418 | $3,454,431$ |
| United States | $52,987,966$ | $8,519,960$ | $61,507,926$ |

Percent Uninsured

Uninsured Population, Percent by County, SAHIE 2019

This indicator reports the percentage of adults aged 18 and older who self-report that they have ever been told by a doctor, nurse, or other health professional that they had asthma. This indicator is relevant because asthma is a prevalent problem in the U.S. and is often exacerbated by poor environmental conditions.

| Report Area | Survey Population (Adults Age 18+) | Total Adults with Asthma | Percent Adults with Asthma | ercent Adults with Asthma |
| :---: | :---: | :---: | :---: | :---: |

Note: No county data available. See data source and methodology for more details.

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |  |

## Built Environment

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2019) | Access to DL Speeds > 25MBPS (2020) | Percentage of Population with Access to Broadband Internet (DL Speeds > 25MBPS) |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: Glascock $\checkmark$ Add County

Glascock Co., Georgia

You may select up to 255 counties

## You are in NAVIGATE Mode (Move Map, Zoom)

## Population Age 65+

Of the estimated 15,618 total population in the report area, an estimated 2,806 persons are adults aged 65 and older, representing $17.97 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 65+ | Population Age 65+, Percent |
| :--- | ---: | ---: | ---: |
| Jefferson County, GA | 15,618 | 2,806 | $17.97 \%$ |

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 75.15 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | Life Expectancy at Birth, $2010-$ 2015 |
| :---: | :---: | :---: | :---: |
| Jefferson County, GA | 16,374 | 75.15 |  |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Jefferson County, GA | 74.60 | 74.60 | 75.10 | 76.50 | 76.50 |

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :---: | ---: | ---: | ---: |
| Jefferson County, GA | 1.9 | 1.0 | 0.4 |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age <br> 1 | Ages 1-4 | Ages 5-14 | Ages 15-24 | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $7.6 \%$ have at least a college bachelor's degree, while $41.8 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School Diploma | High School Only | Some College | Associates Degree | Bachelors Degree | Graduate or Professional Degree |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 3 Head Start programs with a rate of 25.62 per 10,000 children under 5 years old.

| Report Area | Children Under Age 5 | Total Head Start Programs | Head Start Programs, Rate (Per 10,000 Children) |

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 2,255 homes in the report area, there were 63 eviction filings, for an eviction filing rate of $2.79 \%$. 11 of the eviction filings ended in an eviction, for an eviction rate of $0.49 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

| Report Area | White | Black | Asian |  |

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under $130 \%$ (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 2,485 total public school students in the report area, 2,485 were eligible for the free or reduced price lunch program in the latest report year. This represents $100.0 \%$ of public school students, which is higher than the state average of $60.3 \%$.

| Report Area | Total Students | Students Eligible for Free or Reduced Price Lunch | Students Eligible for Free or Reduced Price Lunch, Percent | Percentage of Students Eligible for Free or Reduced Price School Lunch |

## Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

| Report Area | Population Under Age 18 | Food Insecure Children, Total | Child Food Insecurity Rate |
| :--- | ---: | ---: | ---: | ---: |
| Jefferson County, GA | 3,829 | 1,030 | $26.90 \%$ |
| Georgia | 201,476 | 29,664 | $14.70 \%$ |
| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure <br> Population | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |  |

| Georgia | $1,501,680$ |  | $33.00 \%$ | 503,370 | $25.00 \%$ |
| United States | $41,133,950$ |  | $33.00 \%$ | $13,411,620$ |  |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
$0.61 \%$ of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 54 .

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |
| :--- | ---: | ---: | ---: | ---: |
| Jefferson <br> County, GA | 16,930 | 8,847 | 54 | $0.61 \%$ |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 25 total SNAP-Authorized Retailers with a rate of 14.77.

| Report Area | Total Population (2010) | Total SNAP-Authorized <br> Retailers | SNAP-Authorized Retailers, Rate per 10,000 Population | (Per 10,000 Population) |

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 3,842 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 708 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: Jefferson $\checkmark$ Add County

Jefferson Co., Georgia

You may select up to 255 counties

## Population Age 65+

Of the estimated 8,793 total population in the report area, an estimated 1,567 persons are adults aged 65 and older, representing $17.82 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 65+ | Population Age 65+, Percent |
| :--- | ---: | ---: | ---: | ---: |
| Jenkins County, GA | 8,793 | 1,567 | $17.82 \%$ |

## Population Age 65+ by Gender

The table below reports the percentage of the population that is age 65 or older by gender. Among the male population in the report area, $13.07 \%$ are aged 65 years or older. Among the female population, $21.58 \%$ are aged 65 years or older.

| Report Area | Male | Female | Male, Percent | Female, Percent |
| :---: | :---: | :---: | :---: | :---: |
| Jenkins County, GA | 535 | 1,014 | 13.07\% | 21.58\% |
| Georgia | 566,553 | 794,914 | 11.19\% | 14.88\% |
| United States | 20,320,351 | 28,265,193 | 12.71\% | 17.15\% |

## Population Age 65+ by Ethnicity Alone

This indicator reports the percentage of population that are at age $65+$ by ethnicity alone. In the report area, $3.62 \%$ of Hispanic / Latino population are at age 65+, and $19.08 \%$ of non Hispanic / Latino population are at age 65+.

| Report Area | Hispanic or Latino | Not Hispanic or Latino | Hispanic or Latino, Percent | Not Hispanic or Latino, Percent |
| :--- | ---: | ---: | ---: | ---: |
| Jenkins County, GA | 26 | 1,541 | $3.62 \%$ | $19.08 \%$ |
| Georgia | 37,948 | $1,368,537$ | $3.82 \%$ | $14.54 \%$ |
| United States | $4,165,820$ | $46,617,976$ | $7.12 \%$ | $17.51 \%$ |

## Population Age 65+ by Race Alone, Percent

This indicator reports the percentage of each race (alone) making up the population aged 65 or older.

| Report Area | White | Black or African <br> American | Native American or Alaska Native | Asian | Native Hawaiian or Pacific Islander | Some Other Race | Multiple <br> Race |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 73.66 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | $2015$ |
| :---: | :---: | :---: | :---: |
| Jenkins County, GA | 8,922 | 73.66 |  |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Jenkins County, GA | 73.50 | 73.50 | 73.50 | 74.00 | 74.00 |

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :---: | :---: | :---: | :---: |
| Jenkins County, GA | 0.5 | 0.1 |  |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age 1 | Ages 1-4 | Ages 5-14 | Ages 15-24 | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $4.7 \%$ have at least a college bachelor's degree, while $44.8 \%$ stopped their formal educational attainment after high school.

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of 16.31 per 10,000 children under 5 years old.

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 1,143 homes in the report area, there were 46 eviction filings, for an eviction filing rate of $4.02 \%$. 2 of the eviction filings ended in an eviction, for an eviction rate of $0.17 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

| Report Area | Renter Occupied Households | Eviction Filings | Evictions | Eviction Filing Rate | Eviction Rate |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Jenkins County, GA | 1,143 | 46 | 2 | $4.02 \%$ | $0.17 \%$ |
| Georgia | $1,208,418$ | 203,212 | 56,963 | $16.82 \%$ | $4.71 \%$ |
| United States | $38,372,860$ | $2,350,042$ | 898,479 | $6.12 \%$ | $2.34 \%$ |

Note: This indicator is compared to the state average. Data Source: Eviction Lab. 2016. Source geography: Census Tract

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

| Report Area | White | Black | Asian |  | Hispanic or Latino |

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population |  |  |
| :--- | ---: | ---: | ---: |
| Jenkins County, GA | 8,793 | Median Household Income |  |
| Georgia | $10,403,847$ | $\$ 32,808$ |  |
| United States | $324,697,795$ | $\$ 61,950$ |  |

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under 130\% (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 1,163 total public school students in the report area, 1,163 were eligible for the free or reduced price lunch program in the latest report year. This represents $100.0 \%$ of public school students, which is higher than the state average of $60.3 \%$.

## Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

| Report Area | Population Under Age 18 | Food Insecure Children, Total | Child Food Insecurity Rate |
| :--- | ---: | ---: | ---: | ---: |
| Jenkins County, GA | 2,166 | 600 | $27.70 \%$ |
| Georgia | 201,476 | 29,664 | $14.70 \%$ |
| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure <br> Population | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |
| :--- | ---: | ---: | ---: | ---: |
| Jenkins <br> County, GA | 1,780 |  | $11.00 \%$ | 600 |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
$0.96 \%$ of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 48 .

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 11 total SNAP-Authorized Retailers with a rate of 13.19.

Jenkins County, GA

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 1,768 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 331 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: Jenkins $\checkmark$ Add County

Jenkins Co., Georgia

You may select up to 255 counties

## You are in NAVIGATE Mode (Move Map, Zoom)

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 76.30 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | $2015$ |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| ---: | :---: | :---: | :---: | :---: | :---: |
| Lincoln County, GA | 74.70 | 74.70 | 74.70 | 78.00 |  |

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :---: | ---: | ---: | ---: |
| Lincoln County, GA | 3.3 | 5.4 |  |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age 1 | Ages 1-4 | Ages 5-14 | Ages 15-24 | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $11.0 \%$ have at least a college bachelor's degree, while $39.7 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School <br> Diploma | High School <br> Only | Some College | Associates <br> Degree | Bachelors <br> Degree | Graduate or <br> Professional Degree |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of 23.81 per 10,000 children under 5 years old.

| Report Area | Children Under Age 5 | Total Head Start Programs | Head Start Programs, Rate (Per 10,000 Children) |
| :---: | :---: | :---: | :---: |
| Lincoln County, GA | 420 | 1 | 23.81 |

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 901 homes in the report area, there were 0 eviction filings, for an eviction filing rate of $0 \%$. 0 of the eviction filings ended in an eviction, for an eviction rate of $0 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

| Report Area | Renter Occupied Households | Eviction Filings | Evictions | Eviction Filing Rate | Eviction Rate |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Lincoln County, GA | 901 | 0 | 0 | $0 \%$ | $0 \%$ |
| Georgia | $1,208,418$ | 203,212 | 56,963 | $16.82 \%$ | $4.71 \%$ |
| United States | $38,372,860$ | $2,350,042$ | 898,479 | $6.12 \%$ | $2.34 \%$ |

Note: This indicator is compared to the state average. Data Source: Eviction Lab. 2016. Source geography: Census Tract

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

## Income Levels

Two common measures of income are Median Household Income and Per Capita Income based on American Community Survey 5 year estimates. Both measures are shown for the report area below.

| Report Area | Median Household Income |  | Per Capita Income |
| :--- | :---: | :---: | :---: |
| Lincoln County, GA |  | $\$ 39,742$ | $\$ 26,918$ |
| Georgia |  | $\$ 58,700$ | $\$ 31,067$ |
| United States |  | $\$ 62,843$ | $\$ 34,103$ |

Data Source: US Census Bureau, American Community Survey. 2015-19. Source geography: County

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population | Median Household Income |
| :---: | :---: | :---: |
| Lincoln County, GA | 7,856 | \$45,299 |
| Georgia | 10,403,847 | \$61,950 |
| United States | 324,697,795 | \$65,712 |

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under 130\% (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 1,138 total public school students in the report area, 757 were eligible for the free or reduced price lunch program in the latest report year. This represents $66.5 \%$ of public school students, which is higher than the state average of $60.3 \%$.

| Report Area | Total <br> Students | Students Eligible for Free or Reduced <br> Price Lunch | Students Eligible for Free or Reduced Price <br> Lunch, Percent |

## Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

| Report Area | Population Under Age 18 | Food Insecure Children, Total | Child Food Insecurity Rate |
| :--- | ---: | ---: | ---: | ---: |
| Lincoln County, GA | 1,514 | 380 | $25.10 \%$ |
| Georgia | 201,476 | 29,664 | $14.70 \%$ |
| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure <br> Population | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |
| :--- | ---: | ---: | ---: | ---: |
| Lincoln <br> County, GA | 1,310 |  | $22.00 \%$ | 380 |
| Georgia | $1,501,680$ |  | $33.00 \%$ | 503,370 |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
4.32\% of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 151 .

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |
| :--- | ---: | ---: | ---: | ---: |
| Lincoln <br> County, GA | 7,996 | 3,493 | 151 | $4.32 \%$ |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 6 total SNAP-Authorized Retailers with a rate of 7.50 .

| Total Population <br> Report Area | Total SNAP-Authorized <br> Retailers | SNAP-Authorized Retailers, Rate per 10,000 <br> Population |  |

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 2,148 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 324 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |

## Asthma Prevalence

This indicator reports the percentage of adults aged 18 and older who self-report that they have ever been told by a doctor, nurse, or other health professional that they had asthma. This indicator is relevant because asthma is a prevalent problem in the U.S. and is often exacerbated by poor environmental conditions.

| Report Area | Survey Population (Adults Age 18+) | Total Adults with Asthma | Percent Adults with Asthma |  |

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |

## Built Environment

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2019) | Access to DL Speeds > 25MBPS (2020) | Percentage of Population with Access to Broadband Internet (DL Speeds > 25MBPS) |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

## Population Age 65+

Of the estimated 21,455 total population in the report area, an estimated 3,710 persons are adults aged 65 and older, representing $17.29 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 65+ | Population Age 65+, Percent |

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 73.99 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | Expectancy at Birth, 2010- 2015 |
| :---: | :---: | :---: | :---: |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| :---: | ---: | ---: | ---: | ---: | ---: |
| McDuffie County, GA | 72.60 | 73.10 | 74.20 | 74.50 | 75.80 |

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :---: | ---: | ---: | ---: |
| McDuffie County, GA | 3.2 | 1.6 |  |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area |  | Ages 1-4 | Ages 5-14 | Ages 15-24 | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $8.7 \%$ have at least a college bachelor's degree, while $41.6 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School Diploma | High School Only | Some College | Associates Degree | Bachelors Degree | Graduate or Professional Degree |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of 6.41 per 10,000 children under 5 years old.

| Children Under Age <br> Report Area | Total Head Start <br> Programs | Head Start Programs, Rate (Per 10,000 <br> Children) |  |

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 2,991 homes in the report area, there were 506 eviction filings, for an eviction filing rate of $16.92 \%$. 103 of the eviction filings ended in an eviction, for an eviction rate of $3.44 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

| Report Area | Renter Occupied Households | Eviction Filings | Evictions | Eviction Filing Rate | Eviction Rate | Rate |

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

| Report Area | White | Black | Asian | Hispanic or Latino |
| :---: | :---: | :---: | :---: | :---: |
| McDuffie County, GA | 3.27\% | 4.57\% | No data | No data |

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population |  |  |
| :--- | ---: | ---: | ---: |
| McDuffie County, GA | 21,455 | Median Household Income |  |
| Georgia | $10,403,847$ | $\$ 44,473$ |  |
| United States | $324,697,795$ | $\$ 61,950$ |  |

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under $130 \%$ (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 3,810 total public school students in the report area, 3,260 were eligible for the free or reduced price lunch program in the latest report year. This represents $85.6 \%$ of public school students, which is higher than the state average of $60.3 \%$.

| Report Area | Total Students | Students Eligible for Free or Reduced Price Lunch | Students Eligible for Free or Reduced Price Lunch, Percent | Percentage of Students Eligible for Free or Reduced Price School Lunch |
| :---: | :---: | :---: | :---: | :---: |
| McDuffie County, GA | 3,810 | 3,260 | 85.6\% |  |

## Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

| Report Area | Population Under Age 18 | Food Insecure Children, Total | Child Food Insecurity Rate |
| :--- | ---: | ---: | ---: | ---: |
| McDuffie County, GA | 5,678 | 1,550 | $27.30 \%$ |
| Georgia | 201,476 | 29,664 | $14.70 \%$ |
| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Food Insecure <br> Report Area | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |  |  |

| United States | $41,133,950$ |  | $33.00 \%$ | $13,411,620$ | $32.00 \%$ |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
$0.37 \%$ of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 37 .

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |
| :--- | ---: | ---: | ---: | ---: |
| McDuffie <br> County, GA | 21,875 | 9,920 | 37 | $0.37 \%$ |
| Georgia | $9,687,653$ | $3,420,617$ | 971,069 | $28.39 \%$ |
| United States | $308,745,538$ | $97,055,825$ | $18,834,033$ | $19.41 \%$ |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 29 total SNAP-Authorized Retailers with a rate of 13.26.

| Report Area | Total Population (2010) | Total SNAP-Authorized Retailers | SNAP-Authorized Retailers, Rate per 10,000 Population | NAP-Authorized Retailers, Rate (Per 10,000 Population) |
| :---: | :---: | :---: | :---: | :---: |

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 4,894 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 899 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |
| :--- | ---: | ---: | ---: |
| McDuffie County, GA | 3,995 | 899 | 4,894 |

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |
| :--- | ---: | ---: | ---: | ---: |

## Built Environment

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2019) | Access to DL Speeds > 25MBPS (2020) |
| :--- | ---: | ---: | ---: |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: McDuffie $\checkmark$ Add County

You may select up to 255 counties

## You are in NAVIGATE Mode (Move Map, Zoom)

 Click to switch to SELECT Mode
## Distress Criteria Statistical Report

Reference Date: 11 / 2020 (All data elements refer to this date or earlier.)
Region Consists of: McDuffie Co. GA
Report Date: $\quad$ 1/6/2021 3:29:41 PM

## Child Poverty Rate (ACS) Ages 5-17

Population and poverty estimates for children age 5-17 are shown for the report area. According to the American Community Survey 5 year data, an average of $35.6 \%$ percent of children lived in a state of poverty during the survey calendar year. The poverty rate for children living in the report area is less than the national average of $17.9 \%$.

## Population Age 65+

Of the estimated 201,852 total population in the report area, an estimated 27,400 persons are adults aged 65 and older, representing $13.57 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 65+ | Population Age 65+, Percent |
| :--- | ---: | ---: | ---: |
| Richmond County, GA | 201,852 | 27,400 | $13.57 \%$ |

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 74.35 of the total population. Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | $2015$ |
| :---: | :---: | :---: | :---: |
| Richmond County, GA | 201,291 | 74.35 |  |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| ---: | ---: | ---: | ---: | ---: | ---: |
| Richmond County, GA | 65.70 | 72.00 | 73.80 | 76.20 | 81.30 |

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :---: | ---: | ---: | ---: |
| Richmond County, GA | 15.6 | 12.5 | 10.1 |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age <br> 1 | Ages 1- <br> 4 | Ages 5- <br> 14 | $\begin{gathered} \text { Ages } 15- \\ 24 \end{gathered}$ | $\begin{gathered} \text { Ages } 25- \\ 34 \end{gathered}$ | Ages 35- <br> 44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Commuter Travel Patterns

This table shows the method of transportation workers used to travel to work for the report area. Of the 86,387 workers in the report area, $79.6 \%$ drove to work alone while $9.4 \%$ carpooled. $1.9 \%$ of all workers reported that they used some form of public transportation, while others used some optional means including $3.4 \%$ walking or riding bicycles, and $3.1 \%$ used taxicabs to travel to work.

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $13.1 \%$ have at least a college bachelor's degree, while $31.4 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School Diploma | High School Only | Some College | Associates Degree | Bachelors Degree | Graduate or Professional Degree |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 15 Head Start programs with a rate of 10.1 per 10,000 children under 5 years old.

## Evictions

This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave.

Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

Eviction Filing Rate by Year, 2007-2016

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

| Report Area | White | Black | Asian | Hispanic or Latino |
| :---: | :---: | :---: | :---: | :---: |
| Richmond County, GA | No data | No data | No data | No data |
| Georgia | 2.53\% | 3.97\% | 0.01\% | 0.26\% |
| United States | 1.50\% | 0.80\% | 0.01\% | 0.39\% |

Eviction Filings by Neighborhood Predominant Race/Ethnicity, 2016
Totals by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

## Income Levels

Two common measures of income are Median Household Income and Per Capita Income based on American Community Survey 5 year estimates. Both measures are shown for the report area below.

| Report Area | Median Household Income | Per Capita Income |
| :---: | :---: | :---: |
| Richmond County, GA | \$42,728 | \$22,787 |
| Georgia | \$58,700 | \$31,067 |
| United States | \$62,843 | \$34,103 |

Data Source: US Census Bureau, American Community Survey. 2015-19. Source geography: County

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population | Median Household Income |
| :---: | :---: | :---: |
| Richmond County, GA | 201,852 | \$44,810 |
| Georgia | 10,403,847 | \$61,950 |
| United States | 324,697,795 | \$65,712 |

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under $130 \%$ (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 31,741 total public school students in the report area, 29,831 were eligible for the free or reduced price lunch program in the latest report year. This represents $94.0 \%$ of public school students, which is higher than the state average of $60.3 \%$.

| Report Area | Total <br> Students | Students Eligible for Free or Reduced Price Lunch | Students Eligible for Free or Reduced Price Lunch, Percent | Percentage of Students Eligible for Free or Reduced Price School Lunch |

## Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

| Report Area | Population Under Age 18 | Food Insecure Children, Total | Child Food Insecurity Rate |
| :--- | ---: | ---: | ---: |
| Richmond County, GA | 47,218 | 11,710 | $24.80 \%$ |
| Georgia | 201,476 | 29,664 | $14.70 \%$ |
| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Food Insecure <br> Report Area | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |  |

| Richmond <br> County, GA | 43,130 |  | $24.00 \%$ | 11,710 |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
$45.51 \%$ of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 42,205 .

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 206 total SNAP-Authorized Retailers with a rate of 10.27.

| Report Area | Total Population <br> $(\mathbf{2 0 1 0 )}$ | Total SNAP-Authorized <br> Retailers | SNAP-Authorized Retailers, Rate per 10,000 <br> Population |

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 36,934 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 8,005 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |
| :--- | ---: | ---: | ---: |
| Richmond County, GA | 28,930 | 8,005 | 36,934 |

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |
| :--- | ---: | ---: | ---: | ---: |

## Built Environment

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2019) | Access to DL Speeds > 25MBPS (2020) |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: Richmond $\checkmark$ Add County

You may select up to 255 counties

## You are in NAVIGATE Mode (Move Map, Zoom) Click to switch to SELECT Mode

## Distress Criteria Statistical Report

Reference Date: 11 / 2020 (All data elements refer to this date or earlier.)
Region Consists of: Richmond Co. GA
Report Date: $\quad$ 1/6/2021 3:31:28 PM

## Child Poverty Rate (ACS) Ages 0-4

Population and poverty estimates for children age 0-4 are shown for the report area. According to the American Community Survey 5 year data, an average of $35.5 \%$ percent of children lived in a state of poverty during the survey calendar year. The poverty rate for children living in the report area is less than the national average of $20.3 \%$.

## Population Age 65+

Of the estimated 13,989 total population in the report area, an estimated 2,554 persons are adults aged 65 and older, representing $18.26 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 65+ | Population Age 65+, Percent |

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 75.18 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population (2010-2015) | Life Expectancy at Birth (2010-15) | $2015$ |
| :---: | :---: | :---: | :---: |
| Screven County, GA | 14,206 | 75.18 |  |

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Screven County, GA | 73.10 | 73.80 | 75.30 | 75.60 |  |

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :---: | :---: | :---: | :---: |
| Screven County, GA | 5.0 | 3.7 |  |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age 1 | Ages 1-4 | Ages 5-14 | Ages 15-24 | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $9.3 \%$ have at least a college bachelor's degree, while $41.5 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School <br> Diploma | High School <br> Only | Some College | Associates <br> Degree | Bachelors <br> Degree | Graduate or <br> Professional Degree |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of 10.07 per 10,000 children under 5 years old.

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 1,731 homes in the report area, there were 117 eviction filings, for an eviction filing rate of $6.76 \%$. 1 of the eviction filings ended in an eviction, for an eviction rate of $0.06 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

Eviction Filing Rate by Year, 2007-2016

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

| Report Area | White | Black | Asian | Hispanic or Latino |
| :---: | :---: | :---: | :---: | :---: |
| Screven County, GA | 0.11\% | 0.00\% | No data | No data |
| Georgia | 2.53\% | 3.97\% | 0.01\% | 0.26\% |
| United States | 1.50\% | 0.80\% | 0.01\% | 0.39\% |

## Eviction Filings by Neighborhood Predominant Race/Ethnicity, 2016

Totals by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population |  |
| :--- | ---: | ---: |
|  |  | Median Household Income |
| Screven County, GA | 13,989 | $\$ 42,331$ |
| Georgia | $10,403,847$ | $\$ 61,950$ |
| United States | $324,697,795$ | $\$ 65,712$ |

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under $130 \%$ (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 2,307 total public school students in the report area, 1,837 were eligible for the free or reduced price lunch program in the latest report year. This represents $79.6 \%$ of public school students, which is higher than the state average of $60.3 \%$.

| Report Area | Total Students | Students Eligible for Free or Reduced Price Lunch | Students Eligible for Free or Reduced Price Lunch, Percent | Percentage of Students Eligible for Free or Reduced Price School Lunch |

| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure <br> Population | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |  |

| Georgia | $1,501,680$ | $33.00 \%$ | 503,370 | $12.00 \%$ |  |
| United States | $41,133,950$ |  | $33.00 \%$ | $13,411,620$ | $32.00 \%$ |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
20.15\% of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 1,423.

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 22 total SNAP-Authorized Retailers with a rate of 15.08.

| Report Area | Total Population (2010) | Total SNAP-Authorized Retailers | SNAP-Authorized Retailers, Rate per 10,000 Population | SNAP-Authorized Retailers, Rate (Per 10,000 Population) |

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 3,329 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 573 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |
| :--- | ---: | ---: | ---: | ---: |
| Screven County, GA | 2,755 | 573 | 3,329 |
| Georgia | $2,897,012$ | 557,418 | $3,454,431$ |
| United States | $52,987,966$ | $8,519,960$ | $61,507,926$ |

Note: No county data available. See data source and methodology for more details.

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |
| :--- | ---: | ---: | ---: | ---: |

## Built Environment

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2019) | Access to DL Speeds > 25MBPS (2020) | Percentage of Population with Access to Broadband Internet (DL Speeds > 25MBPS) |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: Screven $\checkmark$ Add County

You may select up to 255 counties

## - - - - - - - - - - - - - - -

## Population Age 65+

Of the estimated 1,611 total population in the report area, an estimated 406 persons are adults aged 65 and older, representing $25.20 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 65+ | Population Age 65+, Percent |

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth. Life expectancy measures the average number of years from birth a person can expect to live, according to the current mortality experience (age-specific death rates) of the population. Life expectancy takes into account the number of deaths in a given time period and the average number of people at risk of dying during that period, allowing us to compare data across census tracts with different population sizes.

Within the report area, the average life expectancy at birth is 75.60 of the total population.
Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

Life Expectancy At Birth, Years by Tract, CDC and NCHS 2010-15
Over 87 Years
$84-87$ Years
$81-84$ Years
$78-81$ Years
$75-78$ Years
$72-75$ Years
72 Years or Less

## Life Expectancy (2010-2015) - Geographic Disparity

The tables and charts below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Taliaferro County, GA | 75.60 | 75.60 | 75.60 | 75.60 | 75.60 |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column Ages 1-4 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age <br> 1 | Ages 1- <br> 4 | Ages 5- <br> 14 | $\begin{gathered} \text { Ages } 15- \\ 24 \end{gathered}$ | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2019.
For the selected area, $5.2 \%$ have at least a college bachelor's degree, while $46.2 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School Diploma | High School Only | Some College | Associates Degree | Bachelors Degree | Graduate or Professional Degree |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 0 Head Start programs with a rate of 0 per 10,000 children under 5 years old.

## Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 234 homes in the report area, there were 4 eviction filings, for an eviction filing rate of $1.71 \%$. 0 of the eviction filings ended in an eviction, for an eviction rate of $0 \%$.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

## Eviction Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

Note: Not all counties or states have data that has been provided.

## Household Income

Median annual household incomes in the report area for 2019 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population |  |  |
| :--- | ---: | ---: | ---: |
| Taliaferro County, GA | 1,611 | Median Household Income |  |
| Georgia | $10,403,847$ | $\$ 37,046$ |  |
| United States | $324,697,795$ | $\$ 61,950$ |  |

Data Source: US Census Bureau, Small Area Income and Poverty Estimates. 2019. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last table which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Nutrition

## Free and Reduced Lunch Program

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under $130 \%$ (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 173 total public school students in the report area, 168 were eligible for the free or reduced price lunch program in the latest report year. This represents $97.1 \%$ of public school students, which is higher than the state average of $60.3 \%$.

| Report Area | Total Students | Students Eligible for Free or Reduced Price Lunch | Students Eligible for Free or Reduced Price Lunch, Percent | Percentage of Students Eligible for Free or Reduced Price School Lunch |

## Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

| Report Area | Population Under Age 18 | Food Insecure Children, Total | Child Food Insecurity Rate |
| :--- | ---: | ---: | ---: | ---: |
| Taliaferro County, GA | 284 | 80 | $28.17 \%$ |
| Georgia | 201,476 | 29,664 | $14.70 \%$ |
| United States | $73,641,039$ | $13,411,620$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced
food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Food Insecure <br> Report Area | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |  |
| :--- | ---: | ---: | ---: | ---: |

| Georgia | $1,501,680$ |  | $33.00 \%$ | 503,370 |

## Low Income and Low Food Access

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 Food Access Research Atlas dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.
$100.99 \%$ of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 814 .

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |
| :--- | ---: | ---: | ---: | ---: |
| Taliaferro <br> County, GA | 1,717 | 806 | 814 | $100.99 \%$ |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 3 total SNAP-Authorized Retailers with a rate of 17.47 .

| Report Area | Total Population (2010) | Total SNAP-Authorized Retailers | SNAP-Authorized Retailers, Rate per 10,000 Population | NAP-Authorized Retailers, Rate (Per 10,000 Population) |

[^93]Taliaferro County, GA

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 496 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 93 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |
| :--- | ---: | ---: | ---: |
| Taliaferro County, GA | 404 | 93 | 496 |
| Georgia | $2,897,012$ | 557,418 | $3,454,431$ |

## Deaths of Despair

This indicator reports the rate of death due to intentional self-harm (suicide), alcohol-related disease, and drug overdoses per 100,000 population. Figures are reported as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because suicide is an indicator of poor mental health.

| Report Area | Total Population | Avg. Annual Deaths, 2011-2017 | Mortality Rate, 2001-2007 | Mortality Rate, 2011-2017 |  |
| :--- | ---: | :---: | ---: | ---: | ---: |
| Taliaferro County, GA | 1,663 | Suppressed |  | Suppressed | Suppressed |
| Georgia | $10,111,325$ | 3,410 | 25.8 |  |  |
| United States | $318,679,623$ | 129,605 | 28.9 |  |  |

Note: This indicator is compared to the state average.

## Built Environment

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2019) | Access to DL Speeds > 25MBPS (2020) |
| :--- | ---: | ---: |
| Taliaferro County, GA | 1,537 | $91.02 \%$ |
| Georgia | $10,613,883$ | $93.89 \%$ |
| United States | $331,403,256$ | $96.26 \%$ |

[^94]Percentage of Population with Access to Broadband Internet (DL Speeds > 25MBPS)

## Broadband Access, Percent by Time Period

The table below displays temporal trends in high-speed internet availability as the percent of the population with access to broadband in the indicated area.

| Report Area | December, 2016 | June, 2017 | December, 2017 | June, 2018 | December, 2018 | June, 2019 | December, 2019 | June, 2020 |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.
Source: Georgia Department of Labor. These data represent jobs that are covered by unemployment insurance laws.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: Taliaferro $\checkmark$ Add County

You may select up to 255 counties

| Georgia | 72,487 | 50,880 | 595 | 4,547 | 61 | 1,384 | 1,742 |
| United States | 2,667,743 | 723,383 | 45,719 | 266,568 | 6,338 | 180,553 | 68,636 |

## Population Age 65+

Of the estimated 5,346 total population in the report area, an estimated 1,119 persons are adults aged 65 and older, representing $20.93 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.

| Report Area | Total Population | Population Age 65+ | Population Age 65+, Percent |
| :--- | ---: | ---: | ---: |
| Warren County, GA | 5,346 | 1,119 | $20.93 \%$ |
| Georgia | $10,297,484$ | $1,352,289$ | $13.13 \%$ |
| United States | $322,903,030$ | $49,238,581$ | $15.25 \%$ |

## Life Expectancy by Census Tract

This indicator reports the average life expectancy at birth.

| Report Area | Total Population (2011-2015) | Life Expectancy at Birth (2010-15) |
| :--- | ---: | ---: |
| Warren County, GA | 5,561 | $\mathbf{7 1 . 7 9}$ |
| Georgia | $10,006,693$ | 77.14 |
| United States | $320,098,094$ | 78.69 |

Note: This indicator is compared to the state average
Data Source: Centers for Disease Control and Prevention and the National Center for Health Statistics, U.S. Small-Area Life Expectancy Estimates Project. 2010-15. Source geography: Tract

## Life Expectancy (2010-2015) - Geographic Disparity Report 1

The table and chart below display the minimum, maximum, median and interquartile ranges for census tract values of life expectancy within the report area.

| Report Area | Minimum | 1st Quartile | Median | 3rd Quartile | Maximum |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Warren County, GA | 71.40 | 71.40 | 71.40 | 72.20 | 72.20 |

## Life Expectancy (2010-2015) - Geographic Disparity Report 2

The table and chart below display summary measures describing the distribution of life expectancy values within the report area, including the range (maximum - minimum) and variance. Variance measures include the standard and weighted variance. Weighted variance takes into consideration the population of the neighborhoods/census tracts in determining the spread or values.

| Report Area | Range (Maximum - Minimum) in Life Expectancy | Variance in Life Expectancy | Weighted Variance in Life Expectancy |
| :---: | ---: | ---: | ---: |
| Warren County, GA | 0.8 | 0.3 | 0.2 |

## Period Life Table (2010-2015)

This table displays the probability of dying between the ages referenced in each category (among the population living to the first age in the reference category). For example, the data in column 0 expresses the probability of dying between one and four years of age. Data values are expressed as a percentage.

| Report Area | Under Age 1 | Ages 1-4 | Ages 5-14 | Ages 15-24 | Ages 25-34 | Ages 35-44 | Ages 45-54 | Ages 55-64 | Ages 65-74 | Ages 75-84 |

\section*{Education}

\section*{Educational Attainment}

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2018.
For the selected area, \(8.3 \%\) have at least a college bachelor's degree, while \(42.4 \%\) stopped their formal educational attainment after high school.

\section*{Head Start}

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5 . Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2018 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of \(24.81 \%\) per 10,000 children under 5 years old.
\begin{tabular}{|c|c|c|c|c|}

\section*{Vacancy Rates}

The U.S. Postal Service provided information quarterly to the U.S. Department of Housing and Urban Development on addresses identified as vacant in the previous quarter. Residential and business vacancy rates for the report area in the second quarter of 2019 are reported.
For this reporting period, a total of 59.00 residential addresses were identified as vacant in the report area, a vacancy rate of \(1.9 \%\), and 11.00 business addresses were also reported as vacant, a rate of \(5.1 \%\).

\section*{Evictions}

This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 723 homes in the report area, there were 90 eviction filings, for an eviction filing rate of \(12.45 \%\). 0 of the eviction filings ended in an eviction, for an eviction rate of \(0 \%\).

Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.
\begin{tabular}{|l|r|r|r|r|r|}
\hline \multicolumn{1}{|c|}{ Report Area } & Renter Occupied Households & Eviction Filings & Evictions & Eviction Filing Rate & Eviction Rate \\

\section*{Eviction Filings and Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016}

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

\hline
\end{tabular}

Data Source: US Census Bureau, Small Area Income \& Poverty Estimates. 2018. Source geography: County

\section*{Jobs and Earnings by Sector}

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last line which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals
(L) - Less than \(\$ 50,000\), but the estimates for this item are included in the totals (no data) - Data not available for this year.

\hline
\end{tabular}

\section*{Food Insecurity - Food Insecure Population Ineligible for Assistance}

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).
\begin{tabular}{|l|r|r|r|r|}

\section*{Low Income and Low Food Access}

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than \(1 / 2\) mile from the nearest supermarket, supercenter, or large grocery store. Data are from the 2017 report, LowIncome and Low-Supermarket-Access Census Tracts, 2010-2015. This indicator is relevant because it highlights populations and geographies facing food insecurity.

\section*{SNAP Authorized Food Stores}

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 8 total SNAP-Authorized Retailers with a rate of 13.71.

\section*{Persons Receiving Medicare}

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 1,424 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 287 disabled persons in the report area received Medicare benefits in 2019.
\begin{tabular}{|l|r|r|r|}

\end{tabular}

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

Distress Tool LAUS Bulk Download About Help Calendar

\section*{Measuring Distress}

\section*{A Tool for Economic Development}

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

\section*{County-Based Tool}

Switch to the tract-based tool
1. Select geography using the map and/or the dropdowns

Show dropdowns for: \(\bigcirc\) Counties \(\bigcirc\) Districts \& Metros \(\bigcirc\) States
State: GA \(\checkmark\) County: Warren \(\checkmark\) Add County

## Education

## Educational Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2018.
For the selected area, $6.6 \%$ have at least a college bachelor's degree, while $44.8 \%$ stopped their formal educational attainment after high school.

| Report Area | No High School <br> Diploma | High School <br> Only | Some College | Associates <br> Degree | Bachelors <br> Degree | Graduate or <br> Professional Degree |

## Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.
This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5 . Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2018 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of $15.82 \%$ per 10,000 children under 5 years old.

## Evictions

This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 1,481 homes in the report area, there were 26 eviction filings, for an eviction filing rate of $1.76 \%$. 17 of the eviction filings ended in an eviction, for an eviction rate of $1.15 \%$.

Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

| Report Area | Renter Occupied Households | Eviction Filings | Evictions | Eviction Filing Rate | Eviction Rate |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Wilkes County, GA | 1,481 | 26 | 17 | 1.76\% | 1.15\% |  |

## Eviction Filings and Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

## Income

## Income Levels

Two common measures of income are Median Household Income and Per Capita Income based on U.S. Census Bureau estimates. Both measures are shown for the report area below.

| Report Area | Median Household Income |  | Per Capita Income |
| :--- | :---: | :---: | :---: |
| Wilkes County, GA |  | $\$ 35,106$ | $\$ 23,198$ |
| Georgia |  | $\$ 55,679$ | $\$ 29,523$ |
| United States | $\$ 60,293$ | $\$ 32,621$ |  |

[^98]Wilkes County, GA

## Household Income

Median annual household incomes in the report area for 2018 are shown in the table below. Since this reports a median amount, a "Report Area" value is not able to be calculated.

| Report Area | Estimated Population |  |  |
| :--- | ---: | ---: | ---: |
| Wilkes County, GA | 9,884 | Median Household Income |  |
| Georgia | $10,297,484$ | $\$ 39,361$ |  |
| United States | $322,903,030$ | $\$ 58,634$ |  |

Data Source: US Census Bureau, Small Area Income \& Poverty Estimates. 2018. Source geography: County

## Jobs and Earnings by Sector

The number of jobs and total wage and salary earnings from employment in the report area are broken down by economic sector in the table below. These figures include both private and government employment. The sectors listed below represent private employment except for the last line which includes all the earnings from jobs with local, state and federal government. A negative number means that overall business in that sector lost money for the year in the report area.

Notes:
(D) - Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals (L) - Less than $\$ 50,000$, but the estimates for this item are included in the totals (no data) - Data not available for this year.

## Food Insecurity - Food Insecure Children

This indicator reports the estimated percentage of the population under age 18 that experienced food insecurity at some point during the report year. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food.

| Report Area | Population Under Age 18 | Food Insecure Children, Total | Child Food Insecurity Rate |
| :--- | ---: | ---: | ---: |
| Wilkes County, GA | 2,044 | 560.00 | $27.40 \%$ |
| Georgia | $2,516,850$ | $503,370.00$ | $20.00 \%$ |
| United States | $73,641,039$ | $13,411,620.00$ | $18.21 \%$ |

## Food Insecurity - Food Insecure Population Ineligible for Assistance

This indicator reports the estimated percentage of the total population and the population under age 18 that experienced food insecurity at some point during the report year, but are ineligible for State or Federal nutrition assistance. Food insecurity is the household-level economic and social condition of limited or uncertain access to adequate food. Assistance eligibility is determined based on household income of the food insecure households relative to the maximum income-to-poverty ratio for assistance programs (SNAP, WIC, school meals, CSFP and TEFAP).

| Report Area | Food Insecure <br> Population | Food Insecure Population Ineligible for <br> Assistance, Percent | Food Insecure <br> Children | Food Insecure Children Ineligible for <br> Assistance, Percent |
| :--- | ---: | ---: | ---: | ---: |
| Wilkes <br> County, GA | $1,900.00$ |  | $15.00 \%$ | 560.00 |

This indicator reports the percentage of the low income population with low food access. Low food access is defined as living more than $1 / 2$ mile from the nearest supermarket, supercenter, or large grocery store. Data are from the 2017 report, LowIncome and Low-Supermarket-Access Census Tracts, 2010-2015. This indicator is relevant because it highlights populations and geographies facing food insecurity.

| Report Area | Total <br> Population | Low Income <br> Population | Low Income Population with <br> Low Food Access | Percent Low Income Population with <br> Low Food Access |
| :--- | ---: | ---: | ---: | ---: |
| Wilkes <br> County, GA | 10,593 | 5,907 | 901 | $15.25 \%$ |
| Georgia | $9,687,653$ | $3,819,121$ | $1,044,091$ | $27.34 \%$ |
| United <br> States | $308,745,538$ | $106,758,543$ | $20,221,368$ | 18 |

## SNAP Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 18 total SNAP-Authorized Retailers with a rate of 16.99.

| Report Area | Total Population (2010) | Total SNAP-Authorized Retailers | SNAP-Authorized Retailers, Rate per 10,000 Population | SNAP-Authorized Retailers, Rate (Per 10,000 Population) |
| :---: | :---: | :---: | :---: | :---: |
| Wilkes County, GA | 10,593 | 18 | 16.99 |  |
| Georgia | 9,687,653 | 9,682 | 9.99 |  |

## Persons Receiving Medicare

The total number of persons receiving Medicare is shown, broken down by number over 65 and number of disabled persons receiving Medicare for the report area. The U.S. Department of Health and Human Services reported that a total of 2,695 persons were receiving Medicare benefits in the report area in 2019. A large number of individuals in our society are aware that persons over 65 years of age receive Medicare; however, many of them are unaware that disabled persons also receive Medicare benefits. A total of 488 disabled persons in the report area received Medicare benefits in 2019.

| Report Area | Persons Over 65 Receiving Medicare | Disabled Persons Receiving Medicare | Total Persons Receiving Medicare |
| :--- | ---: | ---: | ---: |
| Wilkes County, GA | 2,206 | 488 | 2,695 |
| Georgia | $2,897,012$ | 557,418 | $3,454,431$ |
| United States | $52,987,966$ | $8,519,960$ | $61,507,926$ |

## Built Environment

## Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2010) | Access to DL Speeds > 25MBPS (2019) | Percentage of Population with Access to Broadband Internet (DL Speeds > 25MBPS) |

Note: *Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System(NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are annual averages of 2020.

## Measuring Distress

## A Tool for Economic Development

A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

## County-Based Tool

Switch to the tract-based tool

1. Select geography using the map and/or the dropdowns

Show dropdowns for: $\bigcirc$ Counties $\bigcirc$ Districts \& Metros $\bigcirc$ States
State: GA $\checkmark$ County: Wilkes $\checkmark$ Add County

You may select up to 255 counties

1 1 1 1 1 1 1 1 1 1 1 1 1 1 1

You are in NAVIGATE Mode (Move Map, Zoom) Click to switch to SELECT Mode

StatsAmerica is a service of the Indiana Business Research Center at Indiana University's Kelley School of Business. This initiative is funded in part by the U.S. Commerce Department's Economic Development Administration.

Communities/States have limited homelessness resources. To what extent are they able to serve those in need?
We take a look at emergency housing on a representative night in January 2019 (HUD's Point-in-Time and Housing Inventory Counts). First, we highlight capacity-how many people is a system able to serve in shelter? Second, we offer utilization data--how many shelter beds are not being used? Some communities have empty beds even while people sleep outside. They should investigate the reasons for this anomaly.

| Total Respondents: 1,610 |  |  |

| \# | OTHER (PLEASE SPECIFY) | DATE |
| :---: | :---: | :---: |
| 1 | I have been disabled since 2010 with the hopes of continuing doing hair, but unfortunately that's not the scenario. I was a licensed master cosmetologist who could not return to work due to my disability of Stage 2 sarcoidosis with hypoxia, anxiety, chronic pain, depression, highblood pressure, hyperglycemia and etc. But, I plan on keeping my home to pass down to my kids that are grown for them to have after God calls me home. But, until then I really need this assistance because my mother has retired and she was helping me and I told her I will be just find and that she needs to live and enjoy her life because I know God is good all the time. | 5/5/2021 3:21 PM |
| 2 | No job | 4/30/2021 5:27 PM |
| 3 | I can't afford food after I pay my bills | 4/24/2021 7:02 AM |
| 4 | Not being given an opportunity because of the way you look for interview or application return. All should be given an opportunity to improve themselves and their appearance. with money anyone can be enhanced with financial security they can eat and pay bills. | 4/20/2021 8:50 AM |
| 5 | Death on family, I have been a caregiver | 4/19/2021 11:26 AM |
| 6 | Insufficient information for apprenticeships/Trades work | 4/7/2021 5:20 PM |
| 7 | Right now I am employed but I Just dont have nowhere to stay I need help with some were to stay thanks so much | 3/25/2021 12:29 PM |

| 8 | There are resources available in Screven County. The issue is no one knows how to get them. When you do hear about it it's word of mouth and you go up to the location to be informed the funds are gone. How can they be gone 1 day later, if it's never made public knowledge how to get them and when and where they are available. Past that they act like there is absolutely nothing they can do to help you no matter what your situation is. |  |  |  |  |  | 2/13/2021 6:13 PM |  |

| 2 | My min concern is treating our communities with the same TLC as other area codes are being treated. We have sore spots in our neighbor hoods that have been going on since I moved out my mothers house at the age of 18 . Now, that my kids are grown I was able to purchase a home with a interest rate of 4.75 which I think was unfair because of my disability and race. We are human beings and its time for change. |  |  |  |  | 5/5/2021 3:21 PM |  |

# Q19 What do you think, or from your experience, are the biggest challenges facing low-income families or individuals right now? 

Answered: 1,392 Skipped: 1,360

| \# | RESPONSES | DATE |
| :---: | :---: | :---: |
| 1 | finding a job | 5/7/2021 9:24 PM |
| 2 | No funding | 5/6/2021 3:25 PM |
| 3 | Housing and criminal defense | 5/5/2021 10:34 PM |
| 4 | Housing and better housing up keep also better medical transportation that except Medicaid that is safe and reliable. | 5/5/2021 4:37 PM |
| 5 | We have always been categorizes as poor, categorized as using the system because we do not want to work, low lifes with no purpose in life and just not deserving of anything. One thing about black folks we are some praying and loving people once you take the time to get to no us. Im not just speaking about my self I am speaking for all of us. Our kids get snatched from early, either from prison or death and the madness has to stop. We have always been judged even when we are at the highest level. Take sports for instance we have took over golf, Olympics, tennis, football, baseball to name a few and we still face scrutiny. But, the God I serve sits high and looks low. Never forget that this could be you one day, so treat people how you want to be treated. | 5/5/2021 3:21 PM |

CSRA EOA, Inc. Community Needs/Assets Assessment Survey - March 12, 2020 - March 15, 2021.

| 99 | Biggest challenge is not enough hours or to high of living | 3/1/2021 3:52 PM |
| :---: | :---: | :---: |
| 100 | No help | 3/1/2021 3:05 PM |
| 101 | obtaining affordable housing with my situation my rent is way to high to manage on the money that I make every two weeks along with a car payment, insurance, and other expenses | 3/1/2021 1:23 PM |
| 102 | Not making enough money to survive | 3/1/2021 1:19 PM |
| 103 | Money | 3/1/2021 1:02 PM |
| 104 | The pandemic not being able to make enough more or save the little money that is being made. My family and I need major help with assistance | 3/1/2021 12:55 PM |
| 105 | I believe low-income families biggest challenges are the education system; if you choose safety for your children as a virtual student need access to quality internet and many distractions during class. Wages are low in the area for families even if you have advanced degrees, training, or certifications. Poor transportation system as often those who rent that are low income are subjected to living only in certain areas that make access to transportation even harder. | 3/1/2021 12:38 PM |
| 106 | Jobs | 3/1/2021 12:21 PM |
| 107 | Job and help | 3/1/2021 11:53 AM |
| 108 | The ability to pay all of their bills. You have to make a choice. | 3/1/2021 11:51 AM |
| 109 | No financial support from the other parent | 3/1/2021 11:50 AM |
| 110 | Income low | 3/1/2021 11:31 AM |
| 111 | Money/ incomeand lack of resources to obtain income | 3/1/2021 4:56 AM |
| 112 | Jobs | 2/28/2021 2:11 PM |
| 113 | Rental and Mortgage assistance. | 2/28/2021 1:19 PM |
| 114 | Stable job, running car, inexpensive housing | 2/28/2021 1:09 PM |
| 115 | lack esteem | 2/26/2021 12:16 PM |
| 116 | being worried about how you're going to make it next | 2/26/2021 12:46 AM |
| 117 | Not enough support. There isn't enough help for the ones whom are trying to help themselves. From experience | 2/25/2021 9:53 PM |
| 118 | Income limits versus cost of living | 2/25/2021 5:56 PM |
| 119 | Changing your environment to better yourself | 2/25/2021 10:12 AM |
| 120 | Low income jobs and inadequate medical care | 2/24/2021 7:26 PM |
| 121 | Not being able to take care family | 2/24/2021 6:54 PM |
| 122 | The cost of living is going up but the pay isn't. | 2/24/2021 5:37 PM |
| 123 | becoming gainfully employed again after recovering from Covid-19. low wages | 2/24/2021 1:57 PM |
| 124 | No one cares . Need Financial help for Rent \$ Utilities Food just Human Compassion! Low Monthly Income. No one can survive on 782.00 \$ once a Month. Can any of You? | 2/24/2021 1:38 PM |
| 125 | source of income | 2/24/2021 11:06 AM |
| 126 | Trying to make sure bills are paid. when covid is making it hard to work | 2/24/2021 9:18 AM |
| 127 | Struggling | 2/23/2021 4:43 PM |
| 128 | Don't know | 2/23/2021 3:37 PM |
| 129 | I think that it's hard for people especially if any unexpected sickness | 2/23/2021 3:35 PM |
| 130 | Shelter; stability | 2/23/2021 2:01 PM |
| 131 | The biggest challenges are trying to survive financially in thes pandemic times financially and | 2/22/2021 3:53 PM |

CSRA EOA, Inc. Community Needs/Assets Assessment Survey - March 12, 2020 - March 15, 2021.
healthwise

| 132 | jobs are very limited since covid | 2/22/2021 3:05 PM |
| :---: | :---: | :---: |
| 133 | Finding a job that pays enough to help them live on their on without any assistance and remaining independent. | 2/22/2021 1:49 PM |
| 134 | finding work | 2/22/2021 1:41 PM |
| 135 | Getting a job, being able to get to and from work. | 2/22/2021 10:56 AM |
| 136 | Unemployment | 2/22/2021 10:31 AM |
| 137 | mental health | 2/22/2021 6:08 AM |
| 138 | Childcare, food, paying the bills | 2/22/2021 12:24 AM |
| 139 | Transportation, education, low paying jobs | 2/20/2021 1:22 AM |
| 140 | Pandemic | 2/19/2021 3:59 PM |
| 141 | Ignorance | 2/19/2021 3:54 PM |
| 142 | Not being able to provide for my daughter as I should when funds are low | 2/19/2021 3:11 PM |
| 143 | The challenges are getting approved and will there be funds when $u$ do get approved | 2/19/2021 2:39 PM |
| 144 | Single parent households | 2/19/2021 2:16 PM |
| 145 | Lack of education, they know how to bilk the system. They're glad to stay home instead of going to work and gaining pride in themselves. This starts with Day Care on up with under aged parents who did not get training growing up and therefor cannot impose that on their children. Many have no sense of true values. All the assistance provided only enables them. It doesn't make any demands on them. it's enabling ando nothing more. They depend on it because it's easier than going to work. When is there going to be a cap on how many children and unwed teenage mother can have. Society is tired of the system. | 2/19/2021 12:28 PM |
| 146 | Rent going up | 2/19/2021 10:58 AM |
| 147 | Getting help to get ahead and support or motion | 2/19/2021 10:30 AM |
| 148 | Getting immediate help, domestic violence, lack of job security | 2/19/2021 6:58 AM |
| 149 | Inability to find a job | 2/18/2021 10:07 PM |
| 150 | The cost of living is to high compared to the wages. I went to college to get a four year degree and not be able to use it. This is crazy. America sells us this dream of encouraging us to go to school for a better living and we come out broke, struggling and in debt. This isnt right. | 2/18/2021 5:16 PM |
| 151 | jobs | 2/18/2021 11:07 AM |
| 152 | COVID19 | 2/18/2021 8:57 AM |

CSRA EOA, Inc. Community Needs/Assets Assessment Survey - March 12, 2020 - March 15, 2021.

five years of experience. Even with experience and more knowledge then some that are fresh out of college it does not matter unless you have a degree. Not everyone has the time or money to go to school. Those that do not go to school are punished with low wages where they can never get better or out of poverty because it never improves. Large companies fire people that do a great job just so they can employ a less experienced worker at a lower pay. We also need more trade jobs. There are a lot of people especially in the south that are good with working with their hands because that is how we are raised down here but then once you are out of high school they demand that you do a desk job to be able to just have food on the table which is not right. A person needs a mechanic for their car just as much as they need an account for their money and each party should get a livable wage.

| 304 | The community and environment they're around | 12/19/2020 11:21 AM |

| 334 | I don't know | 12/11/2020 11:57 AM |
| :---: | :---: | :---: |
| 335 | Lack of work | 12/11/2020 4:50 AM |
| 336 | housing and medical cost/insurance | 12/10/2020 2:05 PM |
| 337 | Living wage jobs. | 12/10/2020 1:45 PM |
| 338 | Facing almost being homeless | 12/10/2020 11:08 AM |
| 339 | The resources are there but the families that need it are denied assistance. Secondly, most families don't have the resources to get the assistance they need. Like the means to get all the verification forms needed, Internet to find resources, transportation, money to purchase things like birth certificates, and time to do everything to meet the eligibility requirements in order to possibly be approved for assistance. Alot of the resources available take hours of calling just to get an apt then you have to have transportation to the apt which cost money. There is not bus routes that pick you up for your apt after you get your child on the bus and wait on your apt to end then have you back in time for your child to get off the bus. Thats what people that say why don't you just take the bus know. Of it was that easy then there would not be near as many jobless people due to transportation needs. | 12/9/2020 6:07 PM |
| 340 | No body cares | 12/9/2020 4:16 PM |

| 448 | Housing and food | 11/23/2020 11:09 AM |
| 449 | Not been able to get my own home and been on low income | 11/22/2020 7:18 PM |
| 450 | keeping bills paid and food on the table and having transportation to get to work | 11/21/2020 9:59 PM |
| 451 | Being unemployed | 11/21/2020 11:34 AM |
| 452 | oSalary wages increase | 11/20/2020 3:02 PM |
| 453 | learning what is available. | 11/20/2020 11:14 AM |
| 454 | Trying to find work during Covid and trying to find reasonable wages for work to be able to stay afloat | 11/19/2020 9:48 PM |
| 455 | Hopelessness; lack of support and resources; systematic prejudice against the most needy of our citizens; lack of response to basic needs of the poor; commercialization of every facet of human experience; generational nature of poverty leading to a lack of initiative based on negative reinforcement of attempts to initiate change. | 11/19/2020 7:00 PM |
| 456 | Assistance | 11/19/2020 4:40 PM |
| 457 | 1. Low wages. Expensive health insurance. Costly health care. | 11/19/2020 4:20 PM |
| 458 | Housing | 11/19/2020 4:15 PM |
| 459 | Affordable housing, health care, and living wage jobs | 11/19/2020 1:28 PM |
| 460 | Not enough resources for single women that are homeless | 11/19/2020 12:42 PM |
| 461 | paying rent , paying for medicine | 11/19/2020 12:04 PM |
| 462 | Jobs not paying enough | 11/19/2020 9:37 AM |
| 463 | Home repairs | 11/19/2020 9:07 AM |
| 464 | Resources | 11/18/2020 7:28 PM |
| 465 | Cost of living, hourly wages not enough to service | 11/18/2020 4:46 PM |
| 466 | We need help | 11/18/2020 12:54 PM |
| 467 | Funding for families with rent and ulitites, education, transportation | 11/18/2020 12:03 PM |
| 468 | Cost of living, household expenses, and wages are unbalanced by our system. Also, those who work hard to make a better living get no assistance, while those who do not work are given it all. These issues have been made worse by Covid-19 | 11/18/2020 11:43 AM |
| 469 | lack of education, lack of resorces, low incomes | 11/18/2020 10:19 AM |

CSRA EOA, Inc. Community Needs/Assets Assessment Survey - March 12, 2020 - March 15, 2021.

| 470 | Covid-19 | 11/17/2020 2:56 PM |
| :---: | :---: | :---: |
| 471 | COVID-19 | 11/17/2020 2:44 PM |
| 472 | Iack of jobs, transportation, child care, criminal history | 11/17/2020 2:05 PM |
| 473 | Low income | 11/17/2020 12:36 PM |
| 474 | The lack of jobs or hours that would normally be given to employees | 11/17/2020 12:03 PM |
| 475 | Jobs transportation | 11/17/2020 9:07 AM |
| 476 | Being informed | 11/17/2020 7:37 AM |
| 477 | Purchasing groceries, Making mortgage payments, paying utility bills | 11/16/2020 3:56 PM |
| 478 | Not enough jobs | 11/16/2020 1:56 PM |
| 479 | Financial stability | 11/16/2020 1:49 PM |
| 480 | Jobs or jobs training | 11/16/2020 12:33 PM |
| 481 | Lack of knowledge in various aspects. Such as job skills and employment opportunities. Citizens in vast numbers in this community do not possess employment skills or training that will help them to enter the job market and advance. Low employment wages prohibit working class residents to meet their obligations and then have enough income to invest in their own futures such as primary savings accounts. Food deserts and poorly equipped educational facilities prevent our children from having nutritional and primary learning foundations on a daily basis. The lack of public transportation service to all areas of the city is also a hindrance not only to the working class but also to the economic development of the city itself. I believe having people in leadership positions who are not sensitive to the needs of the entire community in the one of the major factors responsible for the plight of low-income families in this CSRA. It is time for the concerns and needs of the people to become priority and not political agendas. | 11/16/2020 10:14 AM |
| 482 | Rent, utilities and food for your family | 11/16/2020 8:12 AM |
| 483 | Covid 19 | 11/16/2020 7:15 AM |
| 484 | Trying to make a way out of no way. We use to could make ends meet but not anymore. | 11/15/2020 3:11 PM |
| 485 | Low income family's are facing no food on the table no car yo drive no place to live no way to pay the bills and no way to take care of they family's I am one of them that's why I am reaching out to you to ask for some help with taking care of my family through these challenging times we are having | 11/15/2020 9:00 AM |

| 761 | Not enough jobs available and from my own experience is lack of transportation. | 8/31/2020 10:43 AM |
| 762 | But I think from my experience and my biggest challenge by being a low income family is opportunities to build something greater to come out of poverty and also being trained and understanding what to do with finances so that when things come about we just don't have money to pay bills but you have times like this Come about we don't have other means of income besides a Job so to me we are at a disadvantage And when we try to do more the more we go down the more We Struggle Because the bills get higher bills piling on top each other and we never having a chance to breathe Or take a break Do to the Bills That COMES Repeatedly and no room for us to grow or have better opportunities because we're steady working low income jobs to try to provide for our family and that's what makes it hard for those that are facing low income issues | 8/30/2020 9:34 PM |
| 763 | Kids growing up with one parent/ unwed mothers having to many kids \& depending on the system | 8/30/2020 3:06 PM |
| 764 | Trying to make ends meet! | 8/30/2020 2:15 PM |
| 765 | It very hard but I put it in God hands | 8/28/2020 9:45 PM |
| 766 | Employment | 8/28/2020 9:31 PM |
| 767 | Lack of help and support From The Places that is supposed to help us in Richmond County they either out of funds or they reached there limit | 8/28/2020 8:21 PM |
| 768 | not being able to pay their bills on time and being unemployed | 8/28/2020 10:34 AM |
| 769 | Needing help to better themselves. Help finding a job with better pay and insurance that's affordable. | 8/27/2020 5:17 PM |
| 770 | Employment opportunities better pay | 8/27/2020 3:10 PM |
| 771 | Unable to pay bills on time or at all. | 8/27/2020 2:47 PM |

| 1264 | Childcare | 5/6/2020 2:46 PM |
| 1265 | They have to want better and do whatever it takes to change your situation. You are your only limitation. | 5/5/2020 2:49 PM |
| 1266 | Providing enough food for the month for children and paying rent on time | 5/5/2020 12:13 AM |

CSRA EOA, Inc. Community Needs/Assets Assessment Survey - March 12, 2020 - March 15, 2021.

| 1267 | Wages finding employment and keeping it transport food | 5/5/2020 12:00 AM |
| :---: | :---: | :---: |
| 1268 | trying to find a job | 5/4/2020 6:14 PM |
| 1269 | COVID-19 | 5/4/2020 1:49 PM |
| 1270 | Not with this much going on with coved 19 | 5/2/2020 8:22 AM |
| 1271 | Nothing for the kids to do. No free tutoring program that is free | 5/1/2020 9:51 AM |
| 1272 | poverty | 5/1/2020 8:26 AM |
| 1273 | women living with men with no job, and taking food from children's | 4/30/2020 11:52 AM |
| 1274 | Just working to pay bills never have a dime to spend. Just last week my foodstamp card came had to go without eating for days at a time | 4/30/2020 11:20 AM |
| 1275 | It's stressing and depressing and scary | 4/27/2020 11:19 AM |
| 1276 | Food is to expensive | 4/23/2020 4:17 PM |
| 1277 | How much effort it takes to access services; Difficulty matching working conditions to requirements for continuing access to low-cost/subsidized childcare | 4/22/2020 7:51 PM |
| 1278 | Lack of universal healthcare and llack of access to mental healthcare | 4/22/2020 2:26 PM |
| 1279 | Not making enough income to take care of our bills | 4/20/2020 10:40 PM |
| 1280 | In my opinion the cost of living is increasing and job wages are not a lot of individuals like myself have to work two and three jobs just to try and make ends meet rental properties are increasing mortgage is increasing but employment pay is not and this is the biggest challenge for low-income family and other individuals like myself | 4/20/2020 12:06 PM |
| 1281 | Homelessness | 4/19/2020 7:49 PM |
| 1282 | The health care that is affordable and income based is just the bare minimum. Very bare minimum. Healthcare that every citizen deserves is very exclusive. Therefore, individuals feel like they have it made when they can afford their prescriptions for hypertension, diabetes, arthritis, etc. It is out of question to expect the level of healthcare that will prevent or reverse diseases versus just treating the symptoms. It's asking too much for whole grain, organic, non GMO, healthy foods to cost as little as processed, preservative rich, genetically modified, "middle aisle" foods to which low income families are restricted. | 4/17/2020 5:36 PM |
| 1283 | Finisnscal problems | 4/17/2020 5:28 PM |
| 1284 | n/a | 4/17/2020 1:47 PM |

| 1286 | education | 4/16/2020 7:09 PM |
| 1287 | Low income, job availability | 4/16/2020 6:15 PM |
| 1288 | Low income families | 4/15/2020 7:19 PM |
| 1289 | Affordable housing and to own. And there is no Child care facility here | 4/14/2020 11:17 PM |
| 1290 | Right now for me I think it's just the covid-19 that's going on right now | 4/14/2020 8:31 PM |
| 1291 | The experience is okay. But I think with the right resources and training a lot of people could learn how to go from low income families to high income families with the right resources. I want to to start my own trucking company one day but don't have the resources to go to school for my Cdl | 4/13/2020 1:49 PM |
| 1292 | The biggest challenges right now is the corona virus and lack of funds available. | 4/13/2020 10:09 AM |
| 1293 | Unknown | 4/12/2020 7:31 PM |
| 1294 | hard to get ahead | 4/12/2020 11:06 AM |
| 1295 | Affordable housing | 4/11/2020 1:04 PM |
| 1296 | Work | 4/10/2020 6:16 PM |

CSRA EOA, Inc. Community Needs/Assets Assessment Survey - March 12, 2020 - March 15, 2021.

| 1297 | I think when one goes to court they have these big fines probation fees they have to pay it sets people back and sometimes it's crazy what you're on probation for. The county needs money and they target the people for unnecessary stuff. I understand time people have to suffer the consequences of their actions but some of the things $i$ read about is disturbing. Takes food out of the family mouth causing people to lose their jobs. Don't mention the landlord that get funded through HUD they misuse the money. The rent is so high and landlord don't want to fix anything. This is what low income people have to deal with. Low income families can't ever seem to get above water something else come to knock you down. Resources in the community we don't have sometimes other people will know something but won't tell you that's selfish we all want to climb. | 4/10/2020 3:01 PM |
| :---: | :---: | :---: |
| 1298 | Wrongful termination lack of assistance programs cost of living affordable housing transportation | 4/10/2020 11:18 AM |
| 1299 | Rent | 4/10/2020 10:33 AM |
| 1300 | The problem of finding homes for displaced families and children, so forth the homeless you have renters that have 100's of homes around Augusta but you have 100+ homeless families that would love a chance to better themselves and wake up to prepare their children and family for a better life ahead | 4/10/2020 4:16 AM |
| 1301 | Education, affordable housing and finding reasonable employment to support their families. | 4/9/2020 2:36 PM |

CSRA EOA, Inc. Community Needs/Assets Assessment Survey - March 12, 2020 - March 15, 2021.

| 215 | Medicaid- I am a single mother of a 4 yr old boy who has a developmental delay. I lost my job recently and was denied medicaid for myself and was approved for only $\$ 200 /$ month for food stamps. How will any family make it with $\$ 200 /$ month? I need a vehicle in order to take my son to his multiple therapy apts twice a week, apts with his primary care physician, back n forth to preschool daily, and to find a job. | 12/9/2020 6:07 PM |
| :---: | :---: | :---: |
| 216 | Lost unemployment can't pay | 12/9/2020 4:16 PM |
| 217 | I had a car accident and my insurance had lapsed that morning. I had heart surgery while waiting on my court date and received my letter for court the morning of. I missed it and a bench warrent was taken out and im too sick to turn myself in to straighten it out. Now my licence is suspened and i cant get to Emory in Atlanta for treatment. | 12/9/2020 2:03 PM |

Q4 County(ies) served (click all that apply). If you serve only a portion of the county, please list in the "Other" comment area below.

CSRA EOA Community Assessment -Organizations, Nonprofit \& Government Entities March 2021

Q5 If you provide direct services for low-income families, about how many low-income households/families do you serve/assist each year?

Q6 Currently, how are you providing services for your clientele?

## Q7 In which of the domains are programs and services offered by your organization, company, unit of government (if applicable)?

CSRA EOA Community Assessment -Organizations, Nonprofit \& Government Entities March 2021

## Q8 Do you have a waiting list for services you provide for low-income families?

# Q9 If so, for which services are people currently on your waiting list and about how many people do you normally have on the waiting list at a time? 

|  |  | Answered: 4 | Skipped: 12 |
| :--- | :--- | :--- | :--- |
|  |  |  |  |
| $\#$ | RESPONSES | DATE |  |
| 1 | We have a waiting list for Case management services. Normally around 20 | $3 / 22 / 2021$ 11:27 AM |  |
| 2 | 5000 plus | $3 / 22 / 20219: 36 \mathrm{AM}$ |  |
| 3 | Grant assistance for home repairs | $3 / 17 / 20214: 17$ PM |  |
| 4 | 8 | $3 / 17 / 2021$ | $12: 25$ PM |

# Q10 What are the top three strengths of the community(ies) you serve that help low-income people get out of poverty (i.e. good economy, high graduation rates, good public transit, affordable housing available, etc.)? 

Answered: 8 Skipped: 8

| $\#$ | RESPONSES | DATE |
| :--- | :--- | :--- |
| 1 | High graduation rate | 3/25/2021 5:17 AM |
| 2 | There are many overlapping community service organizations in the CSRA that help address <br> issues of poverty; the economy is strong in comparision to other areas (good cost of living); <br> and there are many employment opportunities in the area (medical, manufacturing, IT, service <br> industry). | 3/19/2021 4:12 PM |
| 3 | Employment Training/Certifications, Housing Assistance, GED programs, public/private <br> transportation | 3/18/2021 3:54 PM |
| 4 | We supply a network of 175 hunger relief agencies with food that is distributed to families <br> struggling with food insecurity. | $3 / 18 / 2021$ 2:53 PM |
| 5 | ????? | Unknown |

## Q11 Of the things being done to address poverty in the CSRA, please rank what you think is helping the most in relation to Education?

## Q17 Nutrition is a problem in this area because:

| ANSWER CHOICES | RESPONSES |  |
| :---: | :---: | :---: |
| Lack of transportation to local grocery stores | 85.71\% | 6 |
| Lack of grocery stores in area | 71.43\% | 5 |
| Not enough income/assistance (SNAP) to purchase enough food | 28.57\% | 2 |
| Lack of affordable healthy food in area | 42.86\% | 3 |
| Alternative food resources not available (pantries) | 0.00\% | 0 |
| Don't use resources available | 14.29\% | 1 |
| Not a problem in this area | 0.00\% | 0 |
| Not sure | 0.00\% | 0 |
| Total Respondents: 7 |  |  |
| \# OTHER (PLEASE SPECIFY) | DATE |  |
| There are numerous food pantries and food resources throughout the CSRA, but some areas and residents lack transportation to get to those resources, or to grocery stores offering fresh food items. With COVID-19, many school systems quickly ramped up food programs for students, which helped some, but that was temporary and not sustaining/sustainable for families. | 3/19/2021 4:22 PM |  |
| 2 Lack of transportation to any available food sites or grocery stores | 3/17/2021 3:08 PM |  |

## Q18 Housing is a problem in this area because:

CSRA EOA Community Assessment -Organizations, Nonprofit \& Government Entities March 2021

| ANSWER CHOICES | RESPONSES |  |
| :---: | :---: | :---: |
| Cost of rent/house payment | 85.71\% | 6 |
| Cost of utility/rent deposit | 71.43\% | 5 |
| Affordable rental housing not available | 57.14\% | 4 |
| Affordable homes to purchase are not available | 28.57\% | 2 |
| Lack of temporary emergency housing (homeless) | 71.43\% | 5 |
| Need weatherization | 14.29\% | 1 |
| Neighborhood conditions are not acceptable where housing is available | 28.57\% | 2 |
| Need repairs (roof, foundation, plumbing, etc.) | 28.57\% | 2 |
| Lack of shelters for emergency situations (domestic violence) | 0.00\% | 0 |
| Lack of affordable housing with modifications for persons with disabilities | 28.57\% | 2 |
| Lack of long-term supportive housing | 42.86\% | 3 |
| Not a problem in this area | 0.00\% | 0 |
| Total Respondents: 7 |  |  |
| \# OTHER (PLEASE SPECIFY) | DATE |  |
| There are no responses. |  |  |

## Q19 Education is a problem in this area because:

| ANSWER CHOICES | RESPONSES |  |
| :---: | :---: | :---: |
| High rate of high school dropouts | 40.00\% | 2 |
| Virtual Schooling - parent(s) not able to provide needed support (COVID) | 60.00\% | 3 |
| Lack of computer equipment/internet access for virtual education (COVID) | 60.00\% | 3 |
| Lack of computer skills | 40.00\% | 2 |
| Children/youth not on grade level in reading, writing and arithmetic | 80.00\% | 4 |
| High number of children/youth suspended or expelled from school | 0.00\% | 0 |
| Lack of access to programs for obtaining a GED | 20.00\% | 1 |
| Lack of tuition money for college/technical college | 0.00\% | 0 |
| Threats of violence in schools | 0.00\% | 0 |
| Not a problem in this area | 0.00\% | 0 |
| Total Respondents: 5 |  |  |
| \# OTHER (PLEASE SPECIFY) | DATE |  |
| 1 Lack of broadband in rural unincorporated areas of counties to connect schools | 3/17/2021 3:08 PM |  |

## Q20 Transportation is a problem in this area because:

| ANSWER CHOICES | RESPONSES |  |
| :---: | :---: | :---: |
| Cost of buying/down payment of a car | 57.14\% | 4 |
| Lack of credit to buy a car | 42.86\% | 3 |
| Cost of maintaining a car (insurance/taxes/repairs) | 71.43\% | 5 |
| Cost of gasoline | 57.14\% | 4 |
| Lack of or Limited public transportation | 85.71\% | 6 |
| Lack of access to low-interest loans to buy car | 14.29\% | 1 |
| Lack of help in learning to drive or getting a license | 14.29\% | 1 |
| People without licenses due to DUIs | 0.00\% | 0 |
| Not a problem in this area. | 0.00\% | 0 |
| Total Respondents: 7 |  |  |
| \# OTHER (PLEASE SPECIFY) | DATE |  |
| There are no responses. |  |  |

## Q21 Employment is a problem in this area because:

CSRA EOA Community Assessment -Organizations, Nonprofit \& Government Entities March 2021

## Q22 Money Management/Financial Literacy knowledge or actions are an issue in this area because:

| ANSWER CHOICES | RESPONSES |
| :--- | :---: | :---: |
| Difficulty with money management (practice) | $50.00 \%$ |
| Lack of knowledge on budgeting/money management | $83.33 \%$ |
| Lack of use of earned income tax credits | $16.67 \%$ |
| Lack of knowledge about savings | 5 |
| Lack of knowledge about investing and/or retirement | $50.00 \%$ |
| Lack of access to banking services (due to costs) | $16.67 \%$ |
| Lack of access to banking services (due to past credit history) | $50.00 \%$ |
| Banking options not accessible in the community (few or no banks in town/community) | $50.00 \%$ |
| Targeted for Identity Theft | $16.67 \%$ |
| Loan Sharks/Predatory Lending in area | $16.67 \%$ |
| Not a problem in this area | 3 |
| Total Respondents: 6 | $50.00 \%$ |

## Q23 Health Care is a problem in this area because:

CSRA EOA Community Assessment -Organizations, Nonprofit \& Government Entities March 2021

## Q24 What other issues are a problem in this area:

| ANSWER CHOICES | RESPONSES |
| :--- | :--- |
| Teen Pregnancy | $50.00 \%$ |
| Lack of Parenting Skills | $50.00 \%$ |
| Lack of Life Skills | $66.67 \%$ |
| Domestic Violence | 3 |
| Homelessness | $66.67 \%$ |
| Lack of after school and weekend activities for youth | $100.00 \%$ |

# Q25 What organizations in your community (feel free to include your own) are helping make the community you serve stronger, helping community members be successful? 

| $\#$ | RESPONSES | DATE |
| :--- | :--- | :--- |
| 1 | Augusta Dream Center, Golden Harvest Food Bank, Forces United, United Way, Hope House, <br> Safe Homes, Salvation Army/Kroc Center, Augusta Technical College, CSRA EOA, WIOA, <br> Department of Labor, Goodwill Job Connection, surrounding local school systems | 3/19/2021 4:30 PM |
| 2 | SafeHomes, Inc. | 3/18/2021 4:01 PM |
| 3 | Golden Harvest Food Bank, Safe Homes of Augusta | 3/18/2021 3:09 PM |
| 4 | CSRA RC | 3/17/2021 3:14 PM |
| 5 | CSRA Regional Commission, Augusta Partnership for Children | 3/17/2021 12:53 PM |
| 6 | EOA, United Way, Augusta Housing and Community Development, Augusta Housing Authority, <br> Community Foundation of the CSRA, Richmond County Schools | 3/17/2021 12:35 PM |

## Q26 What programs, services, and/or government policies are having the best results in helping people get out of poverty?

| Answered: 5 Skipped: 11 |  |  |
| :---: | :---: | :---: |
| \# | RESPONSES | DATE |
| 1 | SafeHomes, Inc. | 3/18/2021 4:01 PM |
| 2 | Lyndon Johnson started the "war on poverty" in 1964, and the census reports 24 million people in poverty in 1969. In 2019, the Census reported 34 million people in poverty. It doesn't look like government programs are terribly effective in helping people out of poverty. | 3/18/2021 3:09 PM |
| 3 | Workforce | 3/17/2021 3:14 PM |
| 4 | Augusta Partnership for Children | 3/17/2021 12:53 PM |
| 5 | federal stimulus, additional money for families with children, subsidized housing, public transportation where available | 3/17/2021 12:35 PM |

## Q27 Any other comments, suggestions, or ideas that you would like to include in our community assessment?

Answered: 3 Skipped: 13

| $\#$ | RESPONSES | DATE |
| :--- | :--- | :--- |
| 1 | Continued development of meaningful partnerships between educational institutions (PreK-12 + <br> postsecondary) + community organizations + local government + business/industry is key. | $3 / 19 / 20214: 30$ PM |
| 2 | none at this time | $3 / 18 / 20214: 01$ PM |
| 3 | More self-sufficiency programs are needed in the CSRA areas | $3 / 17 / 2021$ 12:53 PM |

## Family Self-Sufficiency and Barriers Assessment Summary

Primary barriers impacting families by "Dimension"
**"Primary barriers" are individual circumstances that prevent households from reaching at least a status of "Safe".

| 1. Income |  |
| :---: | :---: |
| Gross income 0\%-50\% of the Federal Poverty Guideline? | 544 |
| Expenses exceed gross income (negative net income)? | 494 |
| Gross income 51\%-100\% of the Federal Poverty Guidelines | 424 |
| No Gross incomeof gross incom | 361 |
| Gross income 101\%-125\% of the Federal Poverty Guidelines | 130 |
| Gross income 126\%-150\% of the Federal Poverty Guidelines | 74 |
| Expenses 91-100\% of gross income? | 55 |
| 2. Employment |  |
| Unemployed; not seeking employment | 407 |
| Limited marketable skills that create barriers for employment and/or career ad vancement | 270 |
| Unemployed; actively seeking employment? | 216 |
| Employed part-time, temporary, seasonal or contract? | 95 |
| No marketable skills? | 36 |
| 3. Education |  |
| Primary adult(s) have education level of 9-12th grade? | 242 |
| Primary adult(s) have education level of 0-8th grade? | 52 |
| Primary adult(s) have no reading, writing or basic math skills? | 11 |
| 4. Housing |  |
| Family is homeless? | 428 |
| Shelter expenses exceed $30 \%$ gross income? | 415 |
| Late (30+ Days)? | 136 |
| Shelter expenses 21-30\% gross income? | 116 |
| Late (60+ Days)? | 74 |
| Family lives in a temporary or transitional housing? | 51 |
| Late (90+ Days)? | 50 |
| Family lives with relatives? | 47 |
| Late (Foreclosure)? | 9 |
| Shelter lacks fully functional electricity and/or plumbing? | 5 |
| Shelter is in need of minor repairs? | 5 |
| 5. Health |  |
| No family members have medical health coverage? | 377 |
| Medical expenses exceed $30 \%$ gross income? | 16 |
| Medical expenses $21-30 \%$ gross income? | 6 |
| 6. Food \& Nutrition |  |
| Family regularly requires access to emergency food resources? | 98 |
| Nutritional expenses exceed $30 \%$ gross income? | 95 |
| Nutritional expenses $21-30 \%$ gross income? | 90 |
| Family has no access to emergency food or means to prepare or store | 2 |
| 7. Childcare |  |
| Childcare is not provided for all child (0-5yrs) | 145 |
| Childcare is needed but unaffordable? allowing family to meet basic needs | 21 |
| Childcare is available at limited times and/or not convenient? | 19 |
| Childcare is needed but unavailable?ed (Bus Tokens, Church Bus, etc.) | 15 |
| Childcare expenses exceed 30\% gross income?? | 5 |
| Childcare provided by un-reliable family or friend? | 4 |
| Childcare expenses $21-30 \%$ gross income? | 2 |
| 8. Transportation |  |
| Transportation expenses exceed 30\% gross income? | 196 |
| Transportation expenses $21-30 \%$ gross income? | 94 |
| Transportation unreliable and unpredictable? | 31 |
| No public or private transportation is available | 29 |
| 9. Family Relations |  |
| Family members have weak relations? | 141 |
| Family members have no positive relations? | 63 |
| 10. Community |  |
| Family socially isolated from community with no motivation for involvement?ca re enrolled in licensed non-subsidized childcare from limited choice Family has negative interactions with community and others (Gangs, Criminal situations, disruptive) | 145 11 |

# CFPB Issues Reports Detailing Mortgage Borrowers' Continuing COVID-19 Challenges 

MAY 04, 2021

WASHINGTON, D.C. - The Consumer Financial Protection Bureau (CFPB) released two reports today showing that more work needs to be done to help mortgage borrowers coping with the COVID-19 pandemic and economic downturn. The first report documents that Black and Hispanic mortgage borrowers are much more likely to be delinquent or in a forbearance program than white borrowers. In a second report, the CFPB reports that overall mortgage complaints to the CFPB have risen to their highest level in three years.
"More borrowers are behind on their mortgage than at any time since the height of the Great Recession," said CFPB Acting Director Dave Uejio. "Communities of color have been hit hard by the pandemic, and the latest data show that many borrowers are still hurting. The CFPB will continue to seek and actively respond to developments in the market, doing everything in our power to help families stay in their homes. As we warned mortgage servicers (https://www.consumerfinance.gov/about-us/newsroom/cfpb-compliance-bull etin-warns-mortgage-servicers-unprepared-is-unacceptable/) last month, unprepared is unacceptable."

The CFPB is seeking comments on a proposal (https://www.consumerfinance.g ov/about-us/newsroom/cfpb-proposes-mortgage-servicing-changes-to-preven t-wave-of-covid-19-foreclosures/) intended to help prevent avoidable foreclosures for borrowers affected by the COVID-19 emergency. That proposal, if finalized, would temporarily require servicers to enhance communications with borrowers who are delinquent or in forbearance, allow servicers to offer certain streamlined loan modification options to borrowers with COVID-19-related hardships, and require servicers to afford all borrowers a special pre-foreclosure review period. The comment period closes May 10th.

## Research Brief on Mortgage Borrowers

The CFPB's research brief, "Characteristics of Mortgage Borrowers During the COVID-19 Pandemic," shows that some homeowners and communities are more at risk than others.

- Borrowers in forbearance or delinquent are disproportionately Black and Hispanic. For example $33 \%$ of borrowers in forbearance (and $27 \%$ of delinquent borrowers) are Black or Hispanic, while only $18 \%$ of the total population of mortgage borrowers are Black or Hispanic.
- Loans in forbearance or delinquent are disproportionately likely to have high loan-to-value (LTV) and limited equity, leaving them vulnerable to being underwater. For example, half of all loans in forbearance have an LTV greater than $60 \%$, compared to only $34 \%$ of current loans. Borrowers who are behind on their payments but not in forbearance are more than five times as likely to have an LTV greater than 95\% than borrowers who are current on their payments.
- Forbearance and delinquency are significantly more common in communities of color (defined as majority minority census tracts) and lower-income communities (defined by census tract income quartiles).

Read the research brief, "Characteristics of Mortgage Borrowers During the COVID-19 Pandemic". $\downarrow$ (cfpb.gov/documents/9695/cfpb_characteristics-mort gage-borrowers-during-covid-19-pandemic_report_2021-05.pdf)

## Consumer Complaint Bulletin on Mortgage Forbearance

In March 2021, consumers submitted more mortgage complaints to the CFPB than in any month since April 2018. Mortgage complaints mentioning forbearance or related terms have also reached their highest monthly average since March and April of 2020, and the number of borrowers who report they are struggling to make their payments is also trending upward.

The complaint bulletin highlights the problems consumers in forbearance are having getting the help they need.

- Servicer communications: Many consumers complained that servicers did not provide clear and accurate information about their options. In particular, consumers reported that servicers were not providing information about loss mitigation until after the consumer's forbearance had ended, and that the information provided about post-forbearance options was confusing and incomplete. The CFPB encourages servicers (https://www.consumerfinance.go v/about-us/blog/mortgage-servicer-communication-strategies-during-the-covi d-19-pandemic/) to use all available tools to reach struggling homeowners and to do so in advance (https://www.consumerfinance.gov/about-us/newsroom/cf pb-compliance-bulletin-warns-mortgage-servicers-unprepared-is-unacceptabl $e /$ ) of the end of the forbearance period.
- Delays and denials of loan modifications: Consumers reported long delays in having their loan modified so that they could resume payments on the mortgage. In some cases, these delays were due to demands for additional documents by servicers. In other cases, consumers said servicers provided
conflicting information about what options were available and the consumer's eligibility for loan modification. The CFPB expects servicers (https://www.consu merfinance.gov/about-us/newsroom/cfpb-compliance-bulletin-warns-mortgag e-servicers-unprepared-is-unacceptable/) to handle inquiries promptly, to evaluate income fairly, and to work with borrowers throughout the loss mitigation process.

Read the consumer complaint bulletin for more information on complaints received by the CFPB. $\downarrow$ (cfpb.gov/documents/9699/cfpb_mortgage-forbeara nce-issues_complaint-bulletin_2021-05.pdf)

## Rental Burdens: Rethinking Affordability Measures

How much of your income should you set aside for rent? With the cost of housing on the rise, researchers are reexamining the 30percent rule of thumb for measuring rental burden.

In July 2014, the Joint Center for Housing Studies of Harvard University released a study finding that nearly half of all renter households in the United States were cost burdened in 2012. This interactive map shows that people living along the east and west coasts and in urban areas bear the greatest cost burdens. HUD defines cost-burdened families as those "who pay more than 30 percent of their income for housing" and "may have difficulty affording necessities such as food, clothing, transportation, and medical care." Severe rent burden is defined as paying more than 50 percent of one's income on rent.

The 30-percent rule - that a household should spend no more than 30 percent of its income on housing costs — has long been accepted in academic circles and is often included in blogs and websites on family budgeting. A recent Business Week article, however, argues that the 30-percent rule is "nearly useless." The authors suggest that calculating housing cost burden using only income ratios oversimplifies the issue of housing affordability. Frank Nothaft, chief economist at Freddie Mac, is quoted in the article as saying, "If your income is $\$ 500,000$ a year, you can pay 40 percent and still have money left. But if your income is $\$ 20,000$ a year, it will be hard to make ends meet if you're paying 30 percent of your income on rent."

As living costs increase, does the 30 percent rule accurately measure rental affordability?

## The Brooke Amendment

The 30-percent rule for measuring affordability can be traced back to an amendment passed in 1969 by Senator Edward Brooke, the country's first popularly elected African American senator and a vocal advocate of affordable housing. He and then-Senator Walter Mondale coauthored the 1968 Fair Housing Act, which prohibits housing discrimination on the basis of race.

The Brooke Amendment, which was passed in 1969 as a response to rent increases and complaints about services in public housing, capped public housing rent at 25 percent of a resident's income. Representative Barney Frank recounted that "[the amendment] said originally that the poorest of the poor who get housing through various public programs shouldn't be expected to pay more than 25 percent of their income for housing, precisely because they have so little." Congress raised the cap to 30 percent in 1981.

## Measurement Differences

In discussing the rental affordability measurement to Business Week, David Bieri of the University of Michigan states that the 30-percent rule "[is] essentially an arbitrary number." One of the arguments against the share of income approach is that different households earning the same annual income spend considerably different amounts of money on basic necessities. For example, families with children spend more on clothing, food, and medical bills than do single adults. Thus, a household with children that spends 50 percent of its income on housing might be cost burdened, whereas a single adult who earns the same salary and spends the same percentage of income on housing might not be. In addition, the share of income measure does not consider cost-of-living differences in areas where housing is expensive. Consider
a very low-income family in New York City that earns approximately $\$ 22,100$ a year, or 30 percent of the area median income according to the Furman Center. If 50 percent of the family's income is dedicated to rent, the family has only about $\$ 200$ per week left to cover all other basic expenditures, including food, clothing, medical costs, and transportation.

Another concern about the share of income measure is that it does not take into account the tradeoffs families make to reduce housing costs. A family may choose to live in a poor-quality home, in a crime-ridden area, or a long distance from work opportunities to reduce housing costs. According to a study by the Joint Center for Housing Studies, "[t]hese added costs [of tradeoffs] are not now captured by the simple approach of measuring only the share of income households spend on their housing."

Even if percentage of income were considered an adequate means of measuring affordability, the research is inconclusive on which inputs should be used to calculate the affordability ratio. The surveys used for measuring rental burden are often self-reported measures of income and expenses, including rent and utilities. Underreported income, as well as the difference between pretax and posttax income, can have an adverse impact on the data. In their analysis of American Housing Survey data, Frederick Eggers and Fouad Moumen note, "Low-income households, in particular, often have large year-to-year swings in income." Without accurate and consistent data on income and expenses, the share of income measure of rental burdens can inadequately represent the problems poor families face.

## The Affordability Problem

Regardless of the means of measurement, the rental affordability problem is evident across studies. Wages are not increasing at the same rate as housing costs, and rents continue to increase. Bloomberg Businessweek finds that since the recession, affordability has increased for homeowners but not for renters. According to Governing, wages have not kept up with increased housing costs in states such as California, Florida, and Michigan. The imbalance between the demand for affordable housing and the supply of low-cost rentals can be seen in metropolitan areas across the United States.

Cities with considerable rental burdens such as New York and San Francisco are also places with a high cost of living. According to the New York Times, "someone making \$70,000 a year in other parts of the country would need to make $\$ 166,000$ in Manhattan to enjoy the same purchasing power." Michael Stone of the University of Massachusetts Boston coined the term "shelter poverty" to describe the condition of people who are forced to cut back on basic needs because of the cost of housing. Rather than measuring affordability using a rent-to-income ratio, Stone proposes a residual income approach, which measures cost burden by calculating the money a family has left for housing after other expenditures such as food, clothing, medical costs, and school fees are taken into account.

Data from the American Housing Survey and the American Community Survey indicate that severe rental burdens disproportionately impact poor families. The Worst Case Housing Needs surveys the number of very low-income families (those earning less than 50 percent of the area median income) who pay more than half their income in rent, have substandard housing conditions, or both. In 2011, more than 72 percent of families with severe housing problems and severe rental burdens were in the bottom 30 percent of the median income bracket. Eric Belsky, Jack Goodman, and Rachel Drew compared surveys of affordability and found that "irrespective of the dataset used, renters in the bottom quintiles account for at least 85 percent of severely cost burdened renters."

The Brooke Amendment, and the 30 percent rule in general, are meant to protect low-income households from extreme rental costs. High housing costs and high prices for basic necessities place a greater burden on poor households living in metropolitan areas. Measures of affordability should be reassessed to ensure that policymakers are decreasing rental burdens for poor households.

Do you qualify as rent-burdened according to the 30-percent rule of thumb? Find out what your monthly rent should be according to the 30 percent rule with the Housing Connections rental calculator.

    ## Affordable Housing

    This indicator reports the number and percentage of housing units affordable at various income levels. Affordability is defined by assuming that housing costs should not exceed $30 \%$ of total household income. Income levels are expressed as a percentage of each county's median household income.

    | Report <br> Area | Units Affordable at 15\% AMI | Units Affordable at 30\% AMI | Units Affordable at 40\% AMI | Units Affordable at 50\% AMI | Units Affordable at 60\% AMI | Units Affordable at 80\% AMI | Units Affordable at AMI | Units Affordable <br> at $\mathbf{1 2 5 \%}$ AMI |

    ## Evictions

    This indicator reports information about formal evictions based on court records from from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The "filing rate" is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An "eviction rate" is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 70,163 homes in the report area, there were 1,154 eviction filings, for an eviction filing rate of $1.64 \%$. 197 of the eviction filings ended in an eviction, for an eviction rate of $0.28 \%$.

    Note: Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

    ## Eviction Filings and Filing Rate by Neighborhood Predominant Race/Ethnicity, 2016

    Rates by race/ethnicity are calculated by aggregating data on evictions in census block groups with a majority of the population (over 50\%) belonging to a specific race/ethnicity. Reported race/ethnicity categories include: Non-Hispanic White; Black or Africa American; Asian, and Hispanic or Latino. In some counties there are no majority Black, Asian, or Hispanic census block groups.

    ## Housing Cost: Owner Cost

    Selected monthly owner costs are the sum of payments for mortgages, deeds of trust, contracts to purchase, or similar debts on the property (including payments for the first mortgage, second mortgages, home equity loans, and other junior mortgages); real estate taxes; fire, hazard, and flood insurance on the property; utilities (electricity, gas, and water and sewer); and fuels (oil, coal, kerosene, wood, etc.). It also includes, where appropriate, the monthly condominium fee for condominiums and mobile home costs. Selected monthly owner costs were tabulated for all owner-occupied units, and usually are shown separately for units "with a mortgage" and for units "not mortgaged."

    | Report Area | Total Owner-Occupied Housing Units | Average Monthly Owner Costs | Median Monthly Owner Costs |  |

    ## Severe Housing Problems

    This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1.51 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than $50 \%$, and 5) gross rent as a percentage of household income greater than $50 \%$. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard.

    | Report Area | Occupied Households | Percentage of Households with One or More Severe Problems |

    ## Substandard Housing

    This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than $30 \%$, and 5) gross rent as a percentage of household income greater than $30 \%$. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard. Of the 169,311 total occupied housing units in the report area, 51,356 or $30.33 \%$ have one or more substandard conditions.

    ## Substandard Housing: Households Lacking Complete Plumbing Facilities

    Complete plumbing facilities include: (a) hot and cold running water, (b) a flush toilet, and (c) a bathtub or shower. All three facilities must be located inside the house, apartment, or mobile home, but not necessarily in the same room. Housing units are classified as lacking complete plumbing facilities when any of the three facilities is not present.

    ## Substandard Housing: Households Lacking Complete Kitchen Facilities

    A unit has complete kitchen facilities when it has all three of the following facilities: (a) a sink with a faucet, (b) a stove or range, and (c) a refrigerator. All kitchen facilities must be located in the house, apartment, or mobile home, but they need not be in the same room. A housing unit having only a microwave or portable heating equipment such as a hot plate or camping stove should not be considered as having complete kitchen facilities. An icebox is not considered to be a refrigerator.

    ## Substandard Housing: Households Lacking Telephone Service

    A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls. Households that have cell-phones (no land-line) are counted as having telephone service available. Households whose service has been discontinued for nonpayment or other reasons are not counted as having telephone service available.

    ## Measuring Distress

    ## A Tool for Economic Development

    A fast simple way to calculate whether a county, region or neighborhood may meet grant thresholds for unemployment and income. Just select county or tract and the tool will create regions or neighborhoods based on your choices.

    Note: The Measuring Distress tool does not provide historical Per Capita Money Income data from the American Community Survey (ACS). Therefore, the data will not change to whichever reference year the user has selected.

    ## County-Based Tool

    ## Population Age 65+

    Of the estimated 534,022 total population in the report area, an estimated 71,686 persons are adults aged 65 and older, representing $13.42 \%$ of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5year estimates. The number of older adults in the report area is relevant because this population has unique needs which should be considered separately from other age groups.
